

# HERITAGE HERDS

Angus cattle are the common thread weaving among them — the bedrock on which generations have built legacies and memories.

But it's the Angus people and families who are the true foundation, passing on the trade, sharing in successes and persevering through the years.

This section is dedicated to the Angus breeders who have carried on this heritage. Those who, for more than 50 years, have learned from the past and embraced the future — the historic Angus herds.
