

Angus Business Remains Strong

by Susan Rhode

The American Angus Association and its entities chalked up a solid business year in fiscal year (FY) 2003, which ended Sept. 30.

"We're very pleased with the year-end figures," says John Crouch, executive vice president of the Association. "Our members and their commercial customers continue to put their faith in Angus genetics and in the programs and services provided by our organization."

Registrations of Angus cattle for the year were 281,734 (see Table 5). Transfers were up for the year at 165,963, an increase of nearly 1%.

Membership figures for the year included 2,915 new regular

members and 1,407 new junior members, down just slightly in both areas from a year ago.

Electronic submission of data to the Association has become the preferred way of doing business for a large percentage of members. During the year, more than 43% of total registrations, a 28% increase from FY 2002, and more than half of weaning and yearling weights were submitted electronically for processing. Data is submitted by members with the help of Angus Information Management Software (AIMS) and AAA Login (formerly Member Logon), a service available on www.angus.org.

Sales of *Certified Angus Beef*® (CAB®) products continued to climb, passing the half-billion-pound mark for the fourth year in a row and maintaining the CAB position as the largest breed-based branded beef program in the world. Annual sales of 580 million pounds (lb.) have been projected, an 8% increase from the previous year. Of that total, retail licensees sold a projected 294 million lb., and foodservice licensees sold a projected 167 million lb. International sales contributed 89 million lb. to the projected total.

Licensees found success in offering CAB prime products, selling more than 6 million lb. for an increase of 135% from a year ago. Value-added products, which include heat-and-serve entrées, deli meats, frankfurters, and sausages, continued to grow with more than 12 million lb. in sales, an increase of 20% for the year.

More than 12 million head of cattle were visually identified as being eligible for CAB. Of those cattle, 2.2 million head met CAB product specifications for a 17.6% acceptance rate.

Reports of sales of Angus cattle were steady from a year ago. Reports from consignment, production and dispersal sales attended by Association regional managers showed average prices of bulls at \$2,241 and females at \$2,545, with an overall average of \$2,355.

Angus breeders continue to focus on making genetic improvements in their herds through the Angus Herd Improvement Records (AHIR) program. Total data submitted to the AHIR

Tennessee	9,395	South Dakota	6,357	Nebraska	602	Illinois	90	Arkansas	44

program was up 3.4% for the year, which included 298,419 birth weights, 294,954 weaning weights and 147,638 yearling weights. That data was submitted by 8,281 herds, which is a 3.3% increase in participation.

Angus breeders continue to use ultrasound technology to gather body composition measurements in their herds. Data was submitted on 95,958 animals, a 14.4% increase for the year. That data came from 2,502 herds, a 16.3% increase in participation.

The Angus Foundation enjoyed growth in FY 2003, providing more than \$40,000 in scholarships to Angus youth and supporting educational and leadership programs for members of the National Junior Angus Association (NJAA) and other projects that benefit the breed.

Table 5: Registrations by breeding method

Total calves recorded			281,734	
Calves produced by natural breeding			151,296	(53.7%)
Cows	90,151	(59.6%)		
Bulls	60,102	(39.7%)		
Steers	1,043	(0.7%)		
Calves produced by artificial insemination*			130,438	(46.3%)
Cows	70,616	(54.1%)		
Bulls	59,395	(45.5%)		
Steers	427	(0.3%)		
Active sires			22,891	
Bulls used naturally			20,708	(90.5%)
Bulls used by artificial insemination			2,183	(9.5%)

*Of the calves produced by AI, 113,687 were registered with AI certificates.
