

FEEDLOTS SEEKING ANGUS CATTLE

Responding to requests for information on operations feeding cattle, the American Angus Association's Commercial Programs Department has assembled a list of feedlots. This resource includes vital information, services available and marketing options on each of the feedlots that responded to an Association mailing. Following is an abbreviated version of that resource. For more information, contact Jim Shirley, director of commercial programs, at (816) 383-5100 or jshirley@angus.org.

More information about the Commercial Programs Department and the services it provides is available on the Association's Web site, www.angus.org.

SUPPLY DEVELOPMENT TEAM: HERE TO SERVE YOU

Larry Corah, vice president, oversees the Supply Development, Packing and Industry Information divisions.

John Stika, assistant vice president, supervises supply development and packing staff, focuses on strategies to enhance end-product quality and carcass utilization, and supervises staff.

Gary Fike, feedlot specialist, Supply Development Division, works closely with current and prospective licensed feedlots from Kansas south.

Paul Dykstra, feedlot specialist, Supply Development Division, works closely with current and prospective licensed feedlots, especially from Nebraska north.

Steve Suther, director, Industry Information Division, writes articles about CAB producer issues for Angus and other beef publications. He directs all CAB efforts to communicate with producers.

Rod Schoenbine, coordinator, producer programs and data services, oversees data entry, specialized data reports and contests such as the National Angus Carcass Challenge. He also serves as a seedstock industry liaison.

Left: Brooke Enders, marketing manager, develops promotional and educational resources, and training seminars, and responds to requests for promotional and marketing services.

Right: Wendy Nichols, office and data manager, assists all Kansas Supply Development staff and coordinates data entry through the Manhattan, Kan., office. She provides assistance for licensed feedlot activities.
