## Look for delegate petitions in the mail

Preparations are already being made for the 2009 Annual Convention of Delegates this November in Louisville, Ky. The first step of the delegate election process will take place this month when forms to nominate delegates to the Annual Meeting will be mailed to every active life and regular Association

member during the last week of March. The nomination period runs from

April 1 through June 30. Each member is allowed to nominate one eligible member who resides in the same state or district. Active members may nominate any one member from their state, including himself or herself. The candidate should be actively involved in the Angus business, willing to attend the meeting and able to represent Angus breeders.

Nominations must be received in the Association office no later than June 30, at which time every qualified nominee will be included on a state ballot. State ballots will be mailed to the membership in July to vote for the final slate of state delegates. When you receive the petition, send it in right away.

## Report new Association, Auxiliary officers

All local, state and regional Angus associations need to submit their new officer listings to the Association Communications Department by May 1. This will ensure correct listings are included on the Association web site and in the *2009 Resource Edition*, which is scheduled to be published as an insert in the August 2009 *Angus Journal*®. Listings will include association name, current officers, addresses, phone numbers and web site, if applicable. If you haven't received a form to update your association's officer listing, contact the Communications Department at 816-383-5100.

This year, state auxiliary information is also being requested in the same mailing. Please be sure to complete both forms and return them in a timely manner. Officer updates can be sent throughout the year and will be corrected on the Association's web site listings of local, state and regional Angus associations.

## W designated for permanent ID in 2009

International letters are designated for each year of birth for livestock identification (ID). These designated letters are an easy option to use in conjunction with numbers when permanently identifying animals. For example, W001 and W002 could designate the first two calves born into your herd in the year 2009. For more information about permanent ID and naming animals for
