

## NATIONAL JUNIOR ANGUS ASSOCIATION

The National Junior Angus Association (NJAA) is the organizational name for junior members of the American Angus Association. The NJAA is governed by a 12-member board elected each year during the annual meeting of the NJAA, which takes place during the National Junior Angus Show (NJAS).

There are presently more than 10,000 active junior members from all parts of the United States and Canada. There are approximately 65 state, regional and local junior Angus associations active throughout the

country. These groups, with the assistance of the American Angus Association, meet regularly, sponsor shows and field days, and take an active part in the Angus business and promotion of the breed.

Junior memberships are available for any young person from birth through their 21st birthday. Memberships are limited to juniors who live in the United States and/or Canada.

Visit [www.njaa.info](http://www.njaa.info) to learn more about the youth program.

## THE ANGUS FOUNDATION

The Angus Foundation, an affiliate of the American Angus Association, was established in 1980 under the laws of the state of Illinois as a 501(c)(3) not-for-profit organization to fund and support programs involving education, youth and research in the Angus breed and the agricultural industry.

Since its inception, a primary funding focus of the Angus Foundation has been to provide Angus youth with opportunities to become strong leaders for the future of the Angus breed. This is being accomplished by awarding scholarships, supporting programs and activities of the National Junior Angus Association (NJAA) and emphasizing the development of personal growth and leadership skills through varied contests, service on the NJAA Board of Directors, and involvement in the National Junior Angus Show (NJAS).

A closely related and equally important focus of the Angus

Foundation has been education and, today, the Angus Foundation is diligently striving to increase its portfolio of funding to better address the educational needs of Angus breeders of all ages about numerous pertinent topics such as genetics, reproduction, management, marketing, processing and food safety.

The third role of the Angus Foundation is to help fund research activities for the purpose of advancing the agricultural industry, benefiting Angus breeders and other beef producers today and in the future.
