

## ULTRASOUND TECHNICIANS

The following list contains names of ultrasound technicians within the United States, Argentina and Canada who are currently approved to submit images to the National Centralized Ultrasound Processing (CUP) Laboratory & Technology Center, managed by Walter & Associates LLC, Ames, Iowa. Only scans submitted by approved technicians to the National CUP Lab will be accepted for calculating ultrasound body-composition expected progeny differences (EPDs) for the American Angus Association. Certifications were conducted in June, with a new list of technicians scheduled to be available by the end of August. For the most current technician listing, visit [www.cuplab.com](http://www.cuplab.com). For more information, contact Bill Bowman, director of performance programs at the American Angus Association, at (816) 383-5100 or Mark Henry at the CUP Lab at (515) 232-9442.
