Dear Friends and Cattlemen,

2020 marks a new decade and our 22nd Annual Performance-Tested Angus Bull and Female Sale, and we invite you to join us on March 15 at Bloomington Livestock Exchange. We will be offering 57 stout herd bull prospects along with 20 elite females. At 2K, we continue to use performance testing, ultrasound data, genomic testing and EPDs to bring bulls that will benefit your program. We continue to use a balanced approach, building our herd off proven genetics.

As an operation, we actively enroll each animal in Angus Herd Improvement Records (AHIR) and have for over 35 years, recording data points from the time a calf is born until that animal leaves. In times where margins are tight, it is important for you to know every piece of information possible on any given bull to ensure confidence in your decision. Having genomic DNA tests completed on these bulls provides the equivalent amount of EPD accuracy as 15-20 progeny. That means by selecting bulls from the 2K program you select a bull with the same amount of accuracy as one who has had a whole calf crop's worth of data already recorded.

We have worked hard to incorporate several calving ease sires providing many choices to mate first-calf heifers. Over half of the offering has a +6 calving ease direct (CED) EPD or higher, which is breed average or above. Our largest calving ease sire groups are out of two popular bulls out of proven programs, SydGen Enhance and Connealy Mainstay. As in year's past several power bulls are available, in fact all of these bulls were weighed on January 25 and put up a group average of 1,365 pounds.

Our goal is to breed bulls that not only produce calves to push down the scales and desirable carcasses but also create great replacement females. For this reason, we have continued to focus on weaned calf value (\$W) as a tool to predict the profitability of the next calf crop. \$W combines costs and revenues associated with a cow/calf operation who sell their calves at weaning, and raise their own replacement females. Realizing the majority of our customers fall into this category, extra selection pressure is placed on this index. Over half of this year's offering ranks in the top 25% of the entire Angus breed for \$W with their average \$W being +68, which is \$12 over breed average and \$10 over last year's sale offering. \$B continues to be a focus with sale offering average \$B of +148 which is nearly \$20 higher than the breed.

Bulls again will be semen-tested and will pass a semen evaluation before sale day. The group was developed on a high roughage ration, and placed on a strict mineral program. Their mineral program has been upgraded for optimal growth, reproduction and structure development.

There are no shortcuts at 2K from the genetics to the feeding program, we want our customers to be successful and do everything possible to ensure you are. Your support in years past and your consideration when choosing this year's herd sire is greatly appreciated. If you would like to view our bulls or females prior to the sale, please feel free to contact us to visit the farm. We are planning a pre-sale dinner and program on Saturday evening, March 14th at Tranel's in Bloomington. Please RSVP to Keri at (608) 778-7250. We hope to see you at the sale in Bloomington, WI on March 15.

Sincerely,

Kevin & Keri Retallick Kelsi Retallick

COMMENTS FROM THE SALE MANAGER

2K Cattle Enterprises - Definition of Performance and Phenotype!

On behalf of the American Angus Hall of Fame, it is a pleasure to be working with the Retallick family on their performance-tested bull sale. The Retallick family has been dedicated to the Angus business for many, many years and this marks their 22nd production sale. They have an outstanding set of service age bulls, cow calf pairs, and elite set of heifer calves that they will be offering on March 15, 2020, in Bloomington, Wisconsin.

The 2K Cattle Enterprises program has strong emphasis on performance with cattle that will add pounds to your calf crop. They also have strong emphasis on phenotype. If you are looking for a bull with rib, muscle shape and a tremendous appearance you will need to not look any further because this set of cattle is just for you. They took a bull to the National Western Stock Show to display their genetics and add value to their program this year and he not only made the National Sale but he came home as one of the top-selling individual of that event, this is quite a task and the best news is that the same quality and genetics sell in this event!

If you are looking to profit from genetics that will work for both seedstock and commercial cattleman, then I urge all you to be with us on March 15, 2020, in Bloomington, Wisconsin. You will not find a finer set of cattle and even a better family to do business with. If you have any questions please feel free to call the farm or us at the American Angus Hall of Fame at 816/532-0811.

Sincerely,

Tom Burke

Sale Location

Bloomington Livestock Exchange is located at 9663 County Hwy. A, Bloomington, WI, approximately 35 miles from Dubuque, IA or 14 miles from Lancaster, WI.

Supplemental Information

Scrotal measurements will be available on sale day. Any announcements made from the sale block will take precedence over what is printed in this sale book.

Herd Health

All cattle are on a complete vaccination program under the direction of SW Vet and will be accompanied by health papers for shipment anywhere in the U.S.

Food & Refreshments

A complimentary lunch co-sponsored by Peoples State Bank will be available at 11 a.m.

Placing of Bids

If you can't attend in person, bids may be placed with 2K, the sale staff or online through DVAuction.

SCHEDULE OF EVENTS

Saturday, March 14, 2020

12 Noon Cattle available for viewing at BLE
6 PM Pre-sale gathering and program at Tranel's, Bloomington

Sunday, March 15, 2020

9 a.m. Cattle available for viewing at BLE
11 a.m. Lunch
1 p.m. Sale

First Season Breeding Guarantee

All bulls selling for \$3,000 or more are guaranteed for the first breeding season. A breeding season is defined as the 90 day period following the first turnout of the bull. If a replacement bull is available, it will be provided. Otherwise, credit will be given in the following sale towards a bull, less \$1500 salvage value. Any potential injury must be diagnosed by a veterinarian. 2K must be notified prior to selling of any injured bull, and all claims must be received no later than October 1, 2020.

Trucking Discount

All bulls picked up day of sale will receive \$100 discount per bull.

Housing & Delivery

Bull housing is available until May 1, 2020 at buyer's risk. Insurance will be available day of sale at buyer's expense. 2K is not responsible for any bull housed at the facility after the sale. All bulls must be scheduled for delivery on or before May 1.

Trucking

Truckers believed to be reliable will be available to assist you on the day of the sale.

Liability

All persons who attend the sale do so at their own risk. 2K Cattle Enterprises assumes no liability, legal or otherwise, for any accidents which may occur.

ANGUS MEDIA Visit the Angus Journal Web site, www.angus.org and view this sale book online. Fellow Cattlemen:

It's an honor and we are proud to have 2K Angus and the Kevin & Keri Retallick Family back at Bloomington Livestock Exchange (BLE) for their 2020 sale. The no nonsense genetics this family have built over generations continue to outdo themselves year in and year out. Athletic, Sound, Functional Bulls and females you will be able to use for years to come.

As the industry continues to change, you can rely on 2K genetics to keep you at the front of the line. As the gates swing at BLE and the auctioneer changes, rest assured that the cattle offered with 2K genetics find the top of the market every time whether it's Feeder Cattle, Replacements or Finished Cattle. Familiar words "she's the keeping kind" is what we hear on our farm visits from 2K Customers.

Thanks,

The Kirschbaum Family

- Owned with Gary Benning, Blue Grass, Iowa
- This young bull is sired by SydGen Enhance who took the Angus world by storm this past year and backed by the Quaker Hill Rampage who served at the 2018 top registration sire in the American Angus Association herd book. He is one of the best bulls to combine real-world performance, EPD profile and phenotype many cattlemen are searching for. Chock- full of growth and performance, he is the #1 sire prospect in the entire sale for five different traits including \$C, \$W, CW, WW and YW EPD. He individually ratios at 111 for weaning and 105 for yearling. His young dam who was the top selling female in 2K's 2018 spring production sale bolstered great dam ratios including BR 2@95, WR 2@111 and YR 2@107.

- Another negative birth weight, double digit calving ease herd bull to pick from. This Enhance son, ranks in the top 15% of the breed for CED, BW, and YW as well as the top 10% for \$Feedlot, 20% for \$B and top 25% for WW and CW. His dam is by WK Reward 1003, 2K's past herd sire who has done great things for 2K, leaving numerous productive females behind. His granddam is Dameron Blackcap 1136 who has a great influence on our show heifer program and has produced her fair share of champions. This bull combines the performance traits of Enhance and style and flash of his maternal line in a great all-encompassing package.
- Recommended for heifers and cows.

SydGen Enhance - Sire of Lots 1-2 and 6-12

• Another calving ease Mainstay bull with some size and scale. He is long and attractive profiled, and is very sound on the move. A powerhouse bull that ratioed 106 at weaning and 105 at weaning he is sure to add pounds to your calf crop and dollars in your pocket whether you sell feeder calves or want your fat cattle to top the market. His dam stems from the Skymere family, and was the highest scanning IMF cow of her contemporary group. She has a WR of 5@104, YR 4@101, and has clearly passed on the %IMF trait ratioing 6@114.

• Recommended for heifers or cows.

• An impressive bull to lead off this year's sale. This bull is what we call a combination bull that excels both phenotypically and genotypically. This young herd sire boasts impressive growth EPDs, ranking in the top 5% for YW EPD. Additionally, he ranks in the top 15% or better for 12 traits including the top 10% for both foot score EPDs. Phenotypically this bull is perhaps the most massive topped, thickest bull in the offering. Ratioing 110 for weaning weight, and 118 for yearling weight this bull is sure to add pounds to your cattle no matter when you sell him. His dam stems from the Blackcap family who are known for their maternal characteristics. She boasts some impressive ratios: BW 4@94, WW 4@104, YW 3@108, and REA 1@107. No matter what your program or your goals, this bull has the balanced EPD profile and phenotype to improve any herd. Recommended for heifers or cows.

• Pounds, pounds, pounds! This bull has had an adjusted weaning of over 950 giving him a 117 weaning ratio and rounding it out with an impressive 116 ratio at yearling. Not only that but he has an individual birth ratio of 93 being born at a mere 67 lbs. Couple that low birth weight with his genomic results and he ranks in the top 10% of non-parent bulls for calving ease. All his growth lands him in the top 5% or better for WW, YW, CW, \$W and \$Feedlot as well as the top 10% for \$B and \$C. He is out of a first calf heifer by the proven-calving ease sire Sitz Investment 660Z out of the original "Pride" family from the Emplace herd. You can't miss this guy when you walk into the pen, he is going to add some pounds and size to your calf crop. Recommended for larger heifers and cows.

2020 NWSS Pen of 3

Join us, Friday night prior to the sale for an evening with the 2K crew, dinner, fellowship, and a short overview of the 2K bull development program as well as short info-session about utilizing selection tools to ensure profitability in the cow-calf sector. Kevin and Kelsi will be on hand to discuss your operation and answer any questions about the offering. Please RSVP to Keri at (608) 778-7250, if you can make it. Saturday, March 14 at 6 P.M - Tranel's Supper Club, Bloomington, WI.

* You recognize this bull for being one of the growthier bulls in the offering and his genetic profile says he's going to pass it on to the next generation. This bull ranks in the top 1% for YW, CW and \$Feedlot, top 3% for \$B, top 4% for WW, top 10% for Milk and \$W and rounds it out with breed average for calving ease. He is backed by a long line of Schaff genetics on the bottom side of his pedigree including Sensation, Registry, and Net Worth. Individually he ratios at 109 at yearling. His young dam did an excellent job weaning of her first at over 800 lbs.

* "319" will make you do a double take because you will want to admire him just a little bit longer for his eye appeal and huge square hip. This Enhance son is out of hard-working Pride dam who clocks in at an impressive 359-day calving interval. The bull himself individually posts a WR of 106 and YR of 104. He has above breed average calving ease and ranks in the top 20% of the breed for both WW and YW EPD. If you're looking to add "fancy" in front of your feeder calves before they run through the sale, this bull will do that and add profit to the bottom line through additional pounds. Recommended for larger heifers or cows.

* Here's the easy fleshing kind. "329" is deep ribbed and soggy middled; the perfect kind to make excellent replacement heifers that will keep the bottom line in the black. His growth surely doesn't disappoint either posting individual ratios of 112 and 111 for weaning and yearling weights. His genetic profile supports his growth performance as he ranks in the top 10% of the breed for WW, YW, top 15% for CW and \$B, and a striking top 3% for \$W. His dam ratios include WWR: 5@102 and YWR 3@105. Recommended for cows and heifers.

* Another calving ease herd bull by one of the hottest bulls in the Angus breed, SydGen Enhance and out great first calf heifer. This bull ranks in the top 20% of the breed or better for 8 different traits including MILK, CW, MARB, RE, \$W, \$Feedlot, \$Grid, \$B and combines all of those to rank in the top 5% of the breed for \$C. This bull will not disappoint in motion as you analyze him on the move. He is as smooth on the move as he is up through that front end. His mother is a direct result of 2K's donor program where he donor dam has produced over 7 natural calves with weaning ratios of 7@106. In total his granddam has produced more than 14 calves in total and is still productive at 2K today. Recommended for heifers and cows.

85	825	N/A	N/A		1400

* Out of one of the most prolific dams at 2K, this Enhance son is the eighth consecutive calf to be born to his Pathfinder Dam, 2K Sara 240. Another bull out of the popular SydGen Enhance who ranks in the top 1% of the breed for \$C. He also ranks in the top 1% for DOC, CW, and \$F, top 2% RADG, YW, and \$B, top 10% for WW and top 25% of the breed for Marbling. He is a calving ease sire with a 139-pound spread from birth to yearling. Individual he ratios a 107 @ weaning and 106 @ yearling. His dam ratios WR 8 @ 104, YR 6 @ 106, URIB 5@104. Recommended for heifers or cows.

* This Enhance son is not to be outdone by his half-brothers. Backed by the popular "Racquel" family, his mother was a product of 2K's embryo transfer program out of the one of the most widely used Angus sires in 2017, WR Journey. "199" himself ratioed 109 @ weaning and 108 @ yearling amongst his contemporaries ranking him in the top 15% for YW and top 20% for WW. Additionally, he ranks in the top 2% for docility and \$Feedlot, 3% for Milk and \$B and top 4% for \$C. He has both the growth and maternal genetics to make it in anyone's herd.

* Another great SydGen Enhance son in the offering. This herd sire prospect, out of a first-calf heifer, boasts a 105-weaning ratio with an adjusted weight of 863. His EPD profile does not disappoint having above breed average calving ease and breed leading growth genetics. He ranks in the top 3% for \$C and \$Feedlot, top 4% for \$B, 5% for YW, top 10% for docility, CW, and \$W. He going to add pre-weaning gain and post-weaning growth to the calf crop. Recommended for heifers or cows.

A rare combination birth to yearling EPD spread, and double-digit calving ease makes him an appealing bull to nearly every type of producer. This bull ranks in the top 10% of the breed for CED, WW, YW, RADG, and \$W, along with top 1% for docility. He is a long-bodied, square hipped, eye - appealing bull that will add pounds to your calf crop. Individually, he ratioed 106 at weaning and 103 at yearling when compared to his contemporaries. His dam has earned her spot at 2K with a calving interval of 4@364 and a WR of 3@103. Recommended for heifers or cows.

An eye-appealing Mainstay son that ranks in the top 1% of the breed for claw set EPD, a new EPD that indicates the bull stands on a good foot. This bull is sound and moves as good as any bull in the lot. He has muscle when you look at him from behind, and carries that through is lower quarter. His dam is a direct daughter of Connealy Courage, and is a great milker. This bull is the type that carries plenty of favorable maternal traits for those looking to keep replacement females. Recommended for larger heifers or cows.

• He was the talk of our NWSS Denver Pen of three, and now is your chance to take home an extraordinary herd sire. Adorningly called "Charm" at the farm, this young sire is backed by a proven pedigree and is the #1 bull in the offering for \$M (maternal weaned calf value); he will leave you heifers that will work for you not the other way around. He ranks in the top 1% of the breed for WW, \$W and \$C. In addition, he ranks in the top 3% of the breed for CW & \$B and top 15% or better YW, Milk, \$Feedlot, \$Grid, Marbling and Ribeye. Individually he ratios 99 @ birth, 109 @ weaning, and 106 @ yearling. His dam comes from the popular Everelda cow family which is a staple in the Deer Valley Farm herd located in TN.

• As a member of the NWSS Pen of 3, this bull is one of only two Knock Out bulls in this year's offering. Chestnut Knock Out is a sire known for his growth and performance and this son of Knock Out has all that in a stylish package. A big hipped, smooth fronted bull who moves with as much athleticism as anything in the pen. This herd sire prospect offers a balanced set of EPDs ranking in the top 10% or better for ten traits. Individually he ratioed 111 at weaning and 103 at yearling, having an adjusted yearling weight of 1475 lbs. His dam is by Connealy Comrade and continues to prove herself at 2K, ratioing an impressive WR of 2@112 on her first two calves.

• The only other Knock Out son in the offering who also earned himself a spot in the National Western Stock Show Pen of 3. His overall thickness, eye appeal, and soundness made him a lot of friends in Denver. This bull is sure to add performance and pounds to your herd and stands on as good of foot as any in the pen. Individually, he ratioed 113 at weaning. Known for her longevity, and fertility, his dam is one of the foundation females at 2K. She has had 11 calves in 10 years, while still maintaining a calving interval of 366 days.

• As a member of 2K's pen of bulls exhibited at the 2020 National Western Stock Show, this bull has been a phenotypic standout since birth. A square-hipped, stout made bull that is backed by one of 2K's most proven cow families. This bull offers a balanced package of EPDs with a large birth to yearling spread. He ranks in the top 10% of all non-parent bulls in the breed for YW, RADG, \$F, and \$B. This is his dam's second calf, and her first calf is already in production at 2K. The granddam of this bull, 2K Racquel 389 has been a staple in the herd, and produced the \$10,000 high-selling female of the 2017 production sale.

A performance packed bull to lead off the HA Prime Cut sons. This bull is a large framed, bull with plenty of pounds and power to boot. He measured with a 15.4-inch actual ribeye at scanning. He is square hipped and eye appealing. This herd sire prospect ranks in the top 4% or better for 10 different traits including WW, YW, \$F, and \$B. Not surprisingly, he ratioed 113 at weaning and 110 for yearling weight when compared to his contemporaries. His dam stems from the proven Queen family and is a direct daughter of Sydgen CC&7 who has worked very well in our herd. She has a weaning ratio of 6@106 and a 354-day calving interval. 389's maternal brother was the high-seller of last year's sale to John Laufenberg of Cassville, WI. If you are looking to add pounds to the scale, you need to pay close attention to this bull and his half-brothers.

This is an excellent Raindance son stylish and complete. SAV Raindance 6848, himself, was the pick of the flushmates out of the 2017 Schaff Angus Valley sale. Raindance calves are said to be "in a league of their own" and this bull is of no exception. Individually he posted a great yearling weight ratio of 107. His mother was a second calf heifer out of our ever-popular herd sire WK Reward 1003, who has left several daughters in production at 2K.

Another younger bull in the offering who offers and extreme amount of length of body and substance of bone. This bull weighed right up with the older bulls in the group and has one of the highest weight per day of age as any bull in the group. His dam is sired by Quaker Hill Rampage 0A36 who is known for his carcass traits, and overall growth and performance. As a first calf heifer, she had a high selling bull in the sale last year. Additionally, this bull had an adjusted weaning weight of over 900 lbs. If you want to add pounds and performance in an eye appealing package, take a close look at this bull.

As a younger bull in the offering, he does not lack performance or frame size. Not only does he rank in the top 10% for key growth traits like YW, WW, and RADG, he also lands in the top 4% of the breed for \$F. His dam is by WK Reward 1003 who is known to produce high milking, big hipped growthy females. We purchased Kramers Lotto 6019 a few years back and have admired him for producing fast-growing, big boned, eye appealing calves. We think this bull has the potential to do the same, while adding some nice replacement females to your herd.

2K Camaro 2069 - Lot 45

If you sell by the pound, this guy will sire calves that push down the scale.

• What a great first-calf heifer to start off the female portion of our Spring Sale. She is a direct daughter of our great donor "2K Lucy 1431", who has produced over \$100,000 in progeny during her lifetime at 2K. She produced the \$10,000 high selling female in both our 2019 and 2018 fall online sales. This S A V Resource 1441 daughter definitely does not disappoint. She combines the greatest assets of both her sire and dam. "2038" is beautiful from the side profile and full of muscle. She is soggy middle and big hiped. Like her dam, she will produce great high performing bulls and females good enough to turn heads on a national level. She sells with a striking heifer calf out of Mogck Entice. Entice was the \$42,000 top-selling bull in the 2018 Mogck & Sons sale "Entice" is the up-and-coming son of SydGen Enhance who is one of Select Sires newest hits.

• BW 78 lbs.
• A great heifer prospect out of Select Sires' highlight Mogck Entice, back to the powerful SydGen Enhance. A great prospect and future donor. Will sell at side of Lot 56.

MOGCK Entice - Sire of Lot 56A

E&B Plus One - Originates from same herd as Lots 57-66

These females originated from the Benoit Angus herd out of Kansas. Lots 57-66 are the top ten picks of the calves that were on the side of these females. The calves were a little younger than what we would typically keep for replacements, but were so consistent we decided to keep what we felt were the top ten heifers and got them bred AI. These have since grown into high-performing, moderate framed, eye appealing heifers. The Benois are well known throughout the nation for their high performing cattle, and are the home to E&B Plus One, the over \$200,000 valuation Confidence Plus son. I almost talked myself out of selling this group of heifers because I have been so impressed with how they have matured, but I know they will treat someone really well in their herd.

-Kelsi Retallick

- This is another very productive female who ranks in the top 25% of the breed for \$B and top 30% for CED and Marb. She is a low birth female combining the proven growth bulls Total Impact and Rito 111 with a direct daughter of the \$80,000 Lucy's Boy 2118 by Traveler T510. She is out of the popular A.I. sire Poss Total Impact 745. She'll sell with a great looking bull calf by 2K Classen 1076 born February 1, 2020.

Poss Total Impact 745 - Sire of Lot 81

Fancy Show Heifer Prospects

Wow, what a group of fall show heifer prospects! These four heifers have not missed a beat since weaning, and are growing well. They have a winning pedigree, going back to the 2010 World Beef Expo Supreme Champion Female and NAILE Grand Champion Bred & Owned Female, 2K Black Lady 839. The sire of Lots 83-85, 2K Classen 1076 by the now deceased EXAR Classenv 1422B had a successful show career himself, and is as good-footed as any bull you will find. The dams of these females are direct daughters of the now deceased Dameron First Class; both 1853 and 1833 were shown successfully as fall calves winning numerous division titles. Their sisters were featured in our 2019 fall online show heifer sale and were high selling females to Missouri and Canada. They are beautifully patterned, big ribbed, structurally sound, and backed by some hard-to-come by pedigrees.

2K Black Lady 839 - Granddam of Lots 82-85

PVF Surveillance 4129 - Sire of Lot 82

2K Black Lady 1799 - Same Maternal Line as Lots 82-85. Sold to Shane Reid in Canada in 2019 online sale.
