

Tradition. Performance. Results.

2020 BULL SALE

Friday, February 14 ★ Sale at 3 PM

Ellensburg Rodeo Arena's Western Village

Offering 100 Registered Angus and Charolais Bulls

Tradition. Performance. Results.

Change brings Opportunity – Nido Qubein

We are excited to welcome you to our new location in Ellensburg to view and bid on an extremely stout set of bulls and females February 14, 2020. The sale will be held at the World-Famous Ellensburg Rodeo Arena's Western Village at 3pm sharp. Livestock will be penned in the rough stock pens for your inspection and the sale will be in a WARM, heated venue! Changing our location gives you the opportunity to join us for a comfortable, fun-filled day! Food truck eats provided Noon-6pm. After the sale we will have live entertainment from the Rusty Cage Band.

Plan to make a weekend of it, as Ellensburg is hosting the Spirit of The West Cowboy Gathering the 14th-16th. This is a town-wide celebration of western music, poetry and art that relive the sights and sound of the old West, from a bygone era.....Gear Show at the Event Center, Live Music/Cowboy Poetry at several Downtown venues, as well as headliner Concerts at the Event Center. Check them out on Facebook or at www.ellensburgcowboygathering.com

Grouped by sires on the following pages, you'll find an outstanding set of bulls represented by 16 different Angus sire groups. By design, these bulls offer performance and structure without compromising balance and style. The variety of sires featured, provides many options in finding your prefect bull.

This year we welcome 4D Land & Livestock from Rathdrum, ID. 4D is a natural addition as a cooperator herd of Rocking R Cattle Company. Please note their offering as bulls with the FD prefix, packed with Rocking R foundation genetics.

Kerry, Brigid & Cora Cliff of Cliff Livestock have selected an exceptional set of Charolais bulls for this sale. Also offered, will be a top cut of Black Angus-influenced open heifers from John & Laura Dixon's elite Dixon Land and Livestock program.

We believe bull sales should be fun, and we have designed ours to be the best you will attend all year! That's why we are continuing our COLD CASH incentive. Every bull buyer will be entered into a game of chance to walk away with \$2,500 cash in a YETI Cooler! For every bull purchased – Angus or Charolais – your name is entered into a drawing at the end of the sale for a YETI cooler full of cash... And since we can't mail cash, stay with us until they end so you can carry your cooler...and your cash home. This includes our Internet buyers too!

If this is not enough to convince you to attend, our famous Bloody Mary bar is back and who can say no to that? Come early and stay late and... if you bring your trailer, we'll discount every bull you buy and haul out on sale day by \$100.00 per head.

Don't forget.... after the sale.... Rusty Cage performs live Classic Outlaw County Music!

See you on the 14th in Ellensburg!

The Angus Alliance

Tradition. Performance. Results.

FRIDAY, FEBRUARY 14, 2020

*Food provided Noon-6:00pm, Sale 3:00pm
Ellensburg Rodeo Arena's Western Village*

SALE DAY PHONES: Mike: (509) 899-9451 • Ron: (208) 664-7527 • Kerry (509) 929-2079

DRIVING DIRECTIONS: From Exit 109, Proceed North on Canyon Road. Canyon Road turns into Main Street. Turn East on University Way. Turn South on Alder Street. Western Village is directly ahead.

Lunch and Drinks: Food provided Noon-6pm. Featuring Campus-U-Totem Burgers & Fries. Along with gourmet hot dogs from Hot Diggidy Dog. Come early for Grandma's Famous Bloody Mary bar! Coffee, pastries and other cocktails available prior to lunch being served.

AUCTIONEER: Butch Booker, Colfax, WA(509) 989-2855

Sale Day Representatives:

Jared Patterson, *Angus Journal*(208) 312-2386
Rod Wesselman, Wesselman Livestock.....(509) 750-2185
Logan Ipsen, *Western Livestock Journal*(916) 947-2392
John Dickinson, Parnell Dickinson, Inc.(916) 806-1919
Ty Groshans, Charolais Assn.(970) 818-6016

The sale partners or one of the sale representatives listed above will be available to provide feedback on the lots and handle phone bids during the sale.

HEALTH & FERTILITY: Health certificates will be issued to all out-of-state buyers on sale day. All bulls, regardless of age, have passed a semen test. Trich tests will be done if required to meet import regulations of the destination states.

WARRANTY: We offer a progressive optional insurance program to protect ALL your important bull investments. Please see page 2 for details on this warranty program available on sale day.

ADDITIONAL PERFORMANCE: Scrotal measurements, additional performance data and ultrasound measurements will be available on sale day.

FEED AND DELIVERY: Bulls may be left in our care free of charge until April 1st and at cost after that. Angus Alliance partners offer free delivery to central locations in WA, OR and ID within 300 miles. Any additional miles, the buyer will pay for at actual cost. Does not apply to females.

TERMS AND CONDITIONS: All cattle sell under the terms and conditions as suggested by the American Angus Association and the American International Charolais Association. All settlements are to be made with the clerk immediately following the conclusion of the sale. Terms of the sale shall be cash or bankable checks unless prior arrangements have been made. All supplements to the sale book or announcements made from the block take precedence over what is written in the sale book. Registration certificates will be transferred on all animals.

INSPECTION OF CATTLE: Sale cattle will be in place and ready for viewing Thursday afternoon, February 13. Please bring your sale book with you to the sale.

LIABILITY: All persons attending the sale and related functions do so at their own risk. Rocking R Cattle Co., Hajny Land & Livestock, Clift Livestock, Kittitas Valley Events Center, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

ANGUS MEDIA Visit the *Angus Journal*® Web site, www.angus.org, and view this sale book online. References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®, EPDs current as of Jan. 7, 2020. Updated EPDs can be viewed online at www.angus.org. The American Angus Association does not generate nor endorse \$C numerical ranks (versus percentile rankings) until \$C numerical ranks are officially released.

LiveAuctions.TV

Real-time bidding is available via the internet for this sale. Live audio and live video will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account prior to the sale. Please visit <http://www.LiveAuctions.tv> to create an account and request a buyer number. Instructions are available at <http://www.LiveAuctions.tv> to walk you through the account setup process. (816) 392-9241

BULL INSURANCE- Protect your Investment!

THEFT, FULL MORTALITY RELATED TO ACCIDENT, ILLNESS OR DISEASE & INFERTILITY COVERAGE

Each breeder will share half the cost of insuring your investment for THEFT, FULL MORTALITY RELATED TO ACCIDENT, ILLNESS OR DISEASE & INFERTILITY COVERAGE through Megan Mires of Olive Insurance Agency,LLC.

Covers all accidental and natural causes of death, including a life-threatening injury or illness for which a veterinarian recommends destruction for humane reasons. In addition, covers total and permanent infertility resulting from accidental injury, illness or disease. ***exclusions apply**

All losses are paid at 100% of the purchase price or insured value, minus salvage if applicable. No deductible.

ANNUAL PREMIUM: 6.9% OF THE PURCHASE PRICE

Each breeder will pay one-half of the premium for either of the above terms of coverage, if requested sale day, at the time of settlement. Coverage of your bull(s) begins sale day.

Olive Insurance Agency, LLC will then invoice you directly after the sale for your 50% of the premium.

Please note- This insurance policy is the only guarantee that will be offered on sale bulls. This guarantee option is only available to the buyer on sale day. We think this is a very fair and progressive way to guarantee the bulls.

If you plan to have someone handle your bid (phone, order, etc.) please make sure they know your insurance needs in advance.

See you on sale day!

Dixon Land and Livestock

Offering 25 Fancy Open Heifers.

A top sort selected from more than 250 heifers with years of AI by the best Angus and Simmental/Angus sires in the nation.

These females from John and Laura Dixon's program in Pomeroy, Washington will sell at the beginning of the sale. Come early to preview this beautiful set of commercial heifers. They will be completely vaccinated, BVD tested PI negative, pelvic measured and sifted for disposition.

Heifers must be hauled out Sale Day

Contact John Dixon for more information
cell 509-751-6208 or home 509-843-1464

American Angus Association® Selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an “I”, and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

Accuracy (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

PRODUCTION EPDs

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Dry Matter Intake (DMI), expressed in pounds per day, is a predictor of difference transmitting ability for feed intake during the postweaning phase, compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Dockility (Doc), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable dockility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

MATERNAL EPDs

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Herds (MkH), indicate the number of herds from which daughters are reported.

Daughters (MkD), reflects the number of daughters that have progeny weaning weight records included in the analysis.

Mature Weight EPD (MW), expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

Mature Height EPD (MH), expressed in inches, is a predictor of the difference in mature height of a sire's daughters compared to daughters of other sires.

Cow Energy Value (\$EN), expressed in dollar savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

CARCASS EPDs

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Group/progeny (C Grp/ Pg and U Grp/Pg), reflects the number of contemporary groups and the number of carcass and ultrasound progeny included in the analysis.

FOOT SCORE EPDs

Claw Set EPD (Claw), is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

Foot Angle EPD (Angle), is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

\$VALUE INDEXES

\$Value indexes, an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Weaned Calf Value (\$M), an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, dockility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Feedlot Value (\$F), an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics for postweaning feedlot merit compared to the progeny of other sires. The underlying objective assumes producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis, but with no consideration of premiums or discounts for quality and yield grade. Traits contributing directly to the index are as follows: yearling weight (gain), carcass weight and feed efficiency.

Grid Value (\$G), an index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for carcass grid merit compared to progeny of other sires. The underlying objective assumes producers will market cattle on an above-industry-average carcass grid. Traits included in the index are as follows (in no particular order): carcass weight, marbling, ribeye area, and fat.

Beef Value (\$B), a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined \$Value

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), dockility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

• Among the top sires for Weaning & Yearling Weight EPD with both in the top 1% of the breed. His unique and valuable elite \$Weaned calf value index and hot Carcass Weight EPD combined with his Calving Ease Direct EPD and minus Birth Weight EPD and his outcross pedigree have made Epic one of the most popular sires of 2018 and 2019 season.

• The \$50,000 selection from the 2015 Three Forks Ranch Sales whose first calf crop dominated the 2017 Express Spring Bull Sale where his son, EXAR Monumental, was the \$80,000 top-selling bull from the 2017 National Western Grand Champion Carload of Bulls where the lead bull was another son of Epic. Breed leading data with EPD rankings in the top 20% or better for 11 EPD traits

- The deceased Basin Excitement is still one of the strongest spread bulls to be found. This bull is truly the epitome of curve-bending genetics! Excitement is a true calving ease bull without sacrificing the traits often lost in typical calving ease cattle. He is sound made, clean fronted, and tight sheathed.
- Excitement is our most trusted, sure-fire calving ease sire, and is used almost exclusively on 1st calf heifers. Excitement calves have consistently low-birth weights and are easy to market with their "big spread" EPD traits and sound structure.

• Offering calving-ease combined with extreme body mass, the demand for 1682 has outpaced availability for the past several years. His progeny has topped bull and female sales throughout the nation and now we proudly offer the results of an outstanding mating to you with a pair of full flush brothers – Lots 18 and 19.

• This cow has left her mark on our herd since we purchased her in 2010 from Basin Angus. She records a BR of 7@99, a WR of 7@108 and a YR of 7@107 on her natural calves. We've retained all of her daughters who are exceptional individuals in our cow herd. Her Connealy Packer son topped our sale in 2015 purchased by Knoll Crest Farm in Red House, VA. For the first time, we are offering a pair of Basin Payweight 1682 full flush brothers out of this powerful and influential donor.

• The \$80,000 feature of the 2012 Connealy Bull Sale has dominated the breed, consistently producing calves with extra muscle and power in addition to calving ease and carcass. We have retained our Black Granite females who are proving to be exceptional mothers – easy fleshing with beautiful udders and calm dispositions. We are again offering a select group of Black Granite genetics full flush brothers Lots 20 through 22.

• Concord has become synonymous with extreme calving ease and calf vigor. He boasts a brow-raising -1.9 BW EPD and we can attest to the accuracy of those numbers. Concord is a maternal brother to the ever-popular Black Granite. Study his pedigree and you will note he is a direct son of the original Connealy Consensus. Don't miss these calving ease machines!

Fortress is a proven package with an incredible spread between calving – ease and growth. His calves are vigorous at birth making him a great choice for heifers as well as cows. The Bennett Fortress bulls were standouts last year and we look forward to featuring another great set of bulls sired by Fortress again this year.

• This handsome Ten X son offers calving ease with a solid EPD spread. As an individual he is structurally flawless with good feet out of a maternally superior line of females. We sold sons in 2018 and have been so impressed with their performance. These are always some of the thickest and most heavily muscled individuals in our calf crop each year. We've retained some beautiful females and offer this great pair of Double XL sons in 2020!

- Only once in several years does an individual come along with Treasure's blend of genetic predictions in tandem with near flawless phenotype and structure.
- Use Treasure to take your breeding program to the next level with many traits in the top 1% of the breed without sacrificing sheath, scrotal or foot quality.
- His EPD script reflects a genomic profile with scores of 1 for WW and YW, 4 for CE, BW and CW, and 8 for MARB and TEND plus incredible individual performance that Includes a 131 IMF ratio.

• At 9 years of age, still one of the most popular and highly proven bulls in the industry with progeny dominating top index lists and sales across the country. Sound structured and powerfully constructed with incredible growth and performance. High reliability curve bender and carcass value backed by over 8,000 progeny in 1,000 plus herds. From one of the most productive and impressive cow families in the industry. Breed leading data with EPD rankings in the top 20% or better for 13 EPD traits.

• Niagara is a standout Hoover Dam son offering calving ease and big yearling performance. As an individual Niagara offers a solid EPD spread and is ranked in the top 10% for both \$W and \$B. We had an impressive group of Niagara sons last year and offer another set for your consideration this year. Take these bulls home and sleep through the night next calving season!

• A son of Basin Payweight 1682 and out of an exceptional donor cow family, Playbook is in the top 5% for SW. Calving ease combined with outstanding weaning weights puts the Playbook bulls in an elite category! This is a feature out of a powerful Thomas Angus cow we flushed. She calves without assistance and is still working in our herd. We have retained her daughters and this is our only bull to offer backed by generations of maternal donor power.

• V A R Legend has tremendous mass and substance necessary to back up his incredible performance data. V A R Legend is bold ribbed with a big, square hip. Use Legend to add muscle performance and Angus character with a breed-leading EPD package. Legend is differentiating himself as the go-to sire in the industry that combines body mass and substance with a big time genetic profile. Legend consistently sires upper-level quality and marketability with standout thickness, capacity and structure that makes the cattle unique. His data is remarkably impressive with 16 EPDs Traits in the top 20% or better for the breed.

• Affectionately known as "Doug" this was our herd bull pick out of the Basin Angus program in 2016 to add 1682 influence. As an individual, this bull ranks in the top 2% for \$W and the top 15% for \$B. Regardless of when you market your calves, these Basin Payweight C212 sons position you for profit.

• Out of a powerful Mytty In Focus cow, this was a Connealy Black Granite son that we couldn't let go of. Black Rock is a striking individual with impressive length, muscle and thickness. His sons are an impressive group and stand shoulder-to-shoulder with the top cut in any program.

 Econo Lodge 509-925-9844

We are excited to be invited back as a guest consigner to the 3rd annual Angus Alliance Bull sale. This year we are offering a new set of genetics to the Northwest. We have spent the last couple of years searching for the best high performance carcass bulls in the U.S. The most consistent herd we found was from the M6 Ranch in Alverado, Texas. You will notice the M6 prefix in most of the bulls offered in this year's sale. We are dedicated to passing on dependable genetics to our customers.

This year we have the best set of bulls we have offered sired by M6 The Force 511P ET who is proving to be a great sire. Also you will see calves out of our newest M6 bull Fresh Whistle 671 P ET who is siring calves with some extra pounds at weaning. You'll notice their good dispositions when walking through the pens. These bulls were sent to Beus Feedlot on September 1st on a developing ration.

Wereallyenjoytheseedstockbusiness,thegeneticselectionandthecamaraderie of competition in the show ring. Our cattle are seen at Junior shows throughout the Northwest, Charolais Junior Nationals, the NILE in Billings, Montana and the National Western Stock Show in Denver, CO. Along with our success in the show ring our bulls have proven successful in commercial herds throughout the Northwest.

We appreciate our loyal customers who have supported us throughout the years. Feel free to visit our website at cliftlivestock.net, Instagram or facebook pages, for updates and more information on our program. Hope to see you on February 14th.

Kerry, Brigid and Cora Clift

• M6 The Force 511 was our pick of the bulls at the 2016 M6 Ranch bull sale in Alverado, Texas where he was second high selling bull at \$23,000. He is full brother to M6 Bells & Whistles who has sold over \$250,000 in semen already. Cool fronted, powerful hip and backed by performance, muscle and carcass credentials. He was selected Grand Champion Bull at the 2016 NILE Stock Show and Reserve Division Champion at the 2017 Denver Stock Show. His calves have been performing in and outside the showing. Recently a bull calf out of him was named Reserve Grand Champion Bull at the 2019 NILE stock show and a heifer was Calf Champion in the open and Jr. division. Limited semen is available through cattle visions as we lost The Force this fall due to a bull fight. He ranks in the top 5% for WW, 8% YW, 6% TM, 4% REA, and 7% TSI.

• This is a fast gaining bull that was a twin with a 65 pound birthweight. Super deep bodied, excellent feet & legs, and is smooth shouldered for calving ease in a medium framed package. His mother was our pick of the herd from Satterfield Charolais of Arkansas in 2016 as a 6 year old cow. She has been a consistent producer that milks like crazy with a great udder.

• Long bodied and big ribbed bull and is extended through the front end that is one of the highest gainers in the fall group. He is packed with genetics that can breed on. His dam came from the Hansen Farms in South Dakota and is out of one of their top Donor cows from the Lindscov-Thiel ranch, LT Airey 9016.

- A correct made bull that has a little more frame to him from his mom's side. He will sire fast gaining calves that will be real aggressive at birth. His grand dam was a great producer until 15 years of age and has 3 daughters in the herd right now. Big weaning weight and yearling weight EPDs in this bull.

- Big time herd sire prospect in this young fall bull. Fastest gaining bull in the bunch that is super deep bodied and is packing a lot of lbs in a medium framed package. He has a beautiful head and is super gentle to be around. We purchased his dam in the Thomas ranch of South Dakota pasture sale as a 6 month old calf in 2013 and she has never dissappointed. Huge weaning weight and yearling weight ratios with a big 208.65 TSI. Probably should of put this guy in our show string this last year.

- Super long bodied bull with a awesome hip and super extended through the front end with a smooth shoulder and a 80# bw. His dam comes from the Eaton Charolais herd in Montana and is a proven calving ease producer. Sired by our newest M6 bull, Fresh Whistle, who is proving to be a very consistant producer. Her 2017 born bull was one of our higher sellers in our bull sale in 2018.

• M6 Fresh Whistle 671P ET was our pick of the last M6 bull sale in 2017 after they dispersed where he was high selling bull of the sale. He brings in another shot of the M6 genetics sired by M6 Bells & Whistles and out of top donor cow, M6 Fresh Patsy 211P who was one of the top sellers in the dispersal who in turn is a daughter of Reserve National Champ RLL Goins' Places 1329. Fresh Whistle stamps a extra shot of weaning weight, extra rib and a great disposition. His first heifer calf was the 2019 NILE Reserve Calf Champion heifer behind another one of our heifers.

• A.I. son of "All the Time" who was our choice of the 2014 Denver Stock show Reserve Grand champion pen of 3 bulls for \$18,000. He went on as a yearling and was Grand Champion Bull at the CWSF and the NILE stock show. This calf is a tank and is the fastest gainer in the spring goup. 77 lb BW with huge weaning weight numbers. Dam goes back to M6 Gridmaker who in my opinion is one of the top producing bulls of all time.

• A young herd sire prospect in this bull sired by The Force. Long topped, deep bodied, big hip with a long smooth front end. Dam was in our 2015 show string and was a member of our first place Breeder's herd. She is a daughter of "All the Time" and out of PCC Rio Wind who is one of the most consistent producing cows we have had. Our heifer that just sold for \$10,000 to Indiana was a granddaughter of PCC Rio Wind. We really like the potential in this calf with big weaning weight, yearling weight and TSI numbers. If we had sent a pen of three bulls to Denver he would have been in it for sure.
