Randy Rasby, *Livestock Plus, Inc.*
H: (308) 386-4857 C: (308) 539-6195

Buyers unable to attend the sale may send their bids to the field representatives or the auctioneer.

Accommodations:

Crest Vue, Mankato, KS (785) 378-3515
U.S. Center Motel, Smith Center, KS (785) 282-6611
Super 8, Beloit, KS..... (800) 800-8000
Super 8, Belleville, KS (785) 527-2112
West Lake Inn, Downs, KS..... (785) 454-3345

Transportation:

Airstrips for small planes are available in surrounding towns close to the ranch. Contact Bonnie Benoit for more information. We will arrange for pick-up service from the small airports in our areas if notified before.

Terms and Conditions:

This sale is being conducted under the Terms and Conditions of the American Angus Association.

Herd Health:

All bulls will be fertility tested. The bulls in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured and dewormed.

All potential carriers for AM have been tested and all cattle will sell AMF

Sale Book Update:

A supplemental sheet will be available sale day with updated information. This sheet will take precedence over the sale book. We will post updates as soon as possible on our website.

Livestock Insurance:

American Livestock Insurance Co. (Harding & Harding)
Sheila Jensen

Lot Numbers:

Ear tags on cattle correspond with lot numbers in this book.

Delivery:

Free delivery. All bulls will be delivered free in Nebraska or Kansas, or we will keep them 30 days and you pick them up, your choice. We will start to deliver a week after the sale. You can take them home the day of the sale and we will give \$50 off each bull purchased. All bulls selling over \$3,000 outside of Kansas and Nebraska will be delivered to a central point.

Guarantee:

All bulls selling for \$2,000 or more are guaranteed against breeding injury for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided, or if the buyer prefers, credit toward one bull will be given in the following year's sale, less salvage value of the injured bull. We will not replace a dead animal if it is killed or dies for any reason. Normal care needs to be exercised toward these animals and not be allowed to get thin or neglected.

Meals:

Coffee and donuts in the morning.
Complimentary lunch will be served at 11:30 A.M.

Sale Day Phone (785) 725-3231
Extra Line (785) 725-3039

Dear Cattleman and Friends

Welcome to our 20th Annual Production Bull Sale. We feel this is our best group of bulls we have ever sold with outstanding quality from the top bull down to the bottom. We have a number of different sires to choose from with some different bloodlines for our repeat customers. There are many bulls that will work on virgin heifers in the offspring as we feel this is also our best group of calving-ease sons we have sold. Also, we have sons that excel in growth both on a weaning weight basis if you sell your calves at weaning or yearling weights as these bulls have been extremely efficient and converted very good average daily gains on a very high roughage ration. We also have some excellent carcass traits in these bulls if you sell on the grid. We will be testing for carcass traits with our usual ultrasound test on February 3 and 4.

Altogether, we feel we have bulls that will improve almost any cowherd on many different traits that you may be lacking. If you've got an area you would like to improve upon, give us a call and we think we can help you find a bull that will fulfill your needs. We are always welcome to visitors so feel free to stop by any-time before sale day to see the bulls and the cows that raised them. Come check out these herd bull prospects and you'll find our bulls to be extremely docile and are in great condition for working throughout the year.

Sincerely yours,
Benoit Angus

E&B Lady Precision 310 - Dam of Lots 1 and 2.

**Benoit Angus will be retaining 1/3
revenue sharing interest in
all bulls selling.**

These two Predestined sons will be really good herd bull prospects. Their dam is a picture perfect, moderate framed cow. She is in embryo transplant for Tim Hendricks in OK and Brad Fahrmeier in MO. These fall bulls were weaned the 1st of May and were on grass until September, at that time we started them on test. These fall bulls will not have the weights the spring bulls have, but are every bit as good. Two full brothers were the top-selling bulls in the 2008 sale.

Full Brothers

GAR Predestined - Sire of Lots 1-6.

3 E&B Predestined 7284

These three Predestined sons are out of one of the best cows we have ever raised at Benoit Angus. A full brother of these two bulls was our top-selling bull in the 2007 sale going to **Koupal Angus of SD** and **Bobby Daniels of TX**. Also selling are maternal sons of EXT, Predestined and Foresight in the spring group, Lots 31-40. E&B Lady Precision 15 is a full sister to E&B 1680 Precision 1023. 1023 is a bull that Dalebanks bought in our 2002 sale and was later leased to ABS Global. You will see many stout made, calving-ease, 1023 sons in this sale. Dam's WR 3/105.

E&B Lady Precision 15 - Dam of Lots 3, 4 and 5.

E&B Predestined 7287 - Lot 6

6 E&B Predestined 7287 (AMF)

These Objective full brothers are as uniform as they come. If you need to add carcass, gender and maternal power, these bulls will do the job.

Repeat Buyer Discount

To show our appreciation for the support of our loyal repeat customers over the years, we are offering a Repeat Buyer Discount. This discount will be 5% from your total purchase price if you purchased a bull in the prior year's sale. This discount will involve only the previous year's sale, not just any previous sale. If you did not purchase a bull last year, but purchase a bull this year, you will receive a 5% discount on your purchase in next year's sale should you decide to be a repeat customer. This will be an ongoing process that will continue in upcoming years.

These EXT sons out of the 15 cow will sire excellent replacements and could be used on heifers with a little management. The Lot 35 bull lost his mother by lightning in the spring and was on his own. We thought the bull would rob another cow but this never happened. The bull will be behind but the genetics are there.

E&B Lady Precision 15 -
Dam of Lots 3-5 and 31-40.

This is a top herd bull prospect. 893 weighed 806 lbs. on weaning day (09/20/08) and we weighed his dam that day weighing 1,052 lbs. with excellent body condition. These 3133 daughters are moderate framed cows with super dispositions, fleshing ability and great udders. 3133 is the bull Chad and Danny Simmelink own 1/2 interest in. They have bred 400 heifers to him each year and their heifer customers are getting lots of sleep.

This is a real good bull out of the 609 bull that we kept back. We feel like our herd bulls are as good as most AI sires.

The Spring Bulls have not been fed any creep. The bulls were fed a high roughage ration to gain 3.0 lbs. per day to ensure soundness. Bulls ran on a 20-acre pasture and have had plenty of exercise.

This is a top heifer bull out of a first calf heifer. If you have heifers to breed, you will like the 3133 sons.

Simmelink Family

We have been using Benoit Angus bulls for our AI and clean-up sires since we started our bred heifer program in 2003. In selecting our bulls, we are looking for calving ease, high weaning weights, and uniformity. The Benoit's have been excellent at suggesting bulls which fit our needs that we can proceed to evaluate and choose from each year. They "do the work" and therefore can walk out in the pen and describe each bull as they walk through them, giving more in depth information on each lot and not just "the numbers." We have bred well over 2,000 heifers with more than 95% of those calving with no assistance. Our customers have been very pleased with the growth and uniformity of the calves. Some of our customers have even kept replacements and bulls out of their first calf crop.

Treat your virgin heifers with one of these 3133 bulls and keep all of the heifers for replacements. You won't be disappointed.

Repeat Buyer Discount

To show our appreciation for the support of our loyal repeat customers over the years, we are offering a Repeat Buyer Discount. This discount will be 5% from your total purchase price if you purchased a bull in the prior year's sale. This discount will involve only the previous year's sale, not just any previous sale. If you did not purchase a bull last year, but purchase a bull this year, you will receive a 5% discount on your purchase in next year's sale should you decide to be a repeat customer. This will be an ongoing process that will continue in upcoming years.

Now **Genetics, Source**
and **Group Age** can all be
documented with **ONE Tag**.

Step 1 Become a Producer Participant

To be eligible to supply cattle to the AngusSource® program, producers must have Angus-sired cattle that originate on their operation, use registered Angus bulls, have management practices which allow for the identification of cattle that are Angus-sired, and keep calving records that document the birth date of the oldest calf.

Complete the AngusSource® Producer Participant Enrollment form and Agreement. Download forms at www.angussource.com or request by calling AngusSource®.

This information must be submitted prior to enrolling cattle.

Step 2 Enroll Calves/Order Tags

Enroll calves by calling AngusSource®. Provide enrollment information to AngusSource® and submit any required records. Enrollment fee: \$1 per head for visual tags, \$3.50 for RFID matched pair tags.

Step 3 Print/Customize Documents

Print or customize AngusSource® Document for feeder cattle or replacement females. To customize, enter information about the health, management and sale date/location. Market cattle through an auction, video or direct by using the printed AngusSource® Document(s) to convey valuable information to potential buyers.

For more information, contact AngusSource® at 816-383-5100 or angussource@angus.org or visit www.angussource.com

ANGUS SOURCE

“Rebate” Program

From Benoit Angus

Benoit Angus will buy 20 “Angus Source” tags for every bull purchased at Benoit Angus for the last two years and in the future.

To participate in the Angus Source program, commercial customers must first complete the “Beef Improvement Records” enrollment form, available in printed form from the American Angus Association or online at www.angussource.com. Tags may then be ordered in one of two ways, www.angussource.com or by calling the AAA. Allow at least two weeks for tag orders to be processed and shipped to you.

After tags have been ordered, fax or e-mail a copy of the AAA receipt/invoice (you will receive this from the AAA a few days after your order is processed) to Benoit Angus. If you are using bulls not purchased from Benoit Angus, please indicate the total number of tags ordered from Benoit Angus sired calves only, and we will send you a check for these tags.

For more information on the Angus Source program, contact the AAA Commercial Programs department at 816-383-5100 or go to www.angussource.com. Thank you for your continued use of Benoit Angus Genetics!

American Angus Association
\$Value Indexes

\$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A \$Value has meaning only when used in comparison to the \$Value of another animal. For example, just as with EPDs, variation in \$Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

\$Values			
\$W	\$F	\$G	\$B
+21.28	+13.60	+12.53	+25.32

Weaned Calf Value (\$W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value (\$G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

How do I use them?

\$Values should be used to complement the criteria that producers already use when selecting bulls.

The \$Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The \$W, \$F, \$G and \$B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.
