10:00 a.m.... East Tennessee Angus Association SHOW

1:00 p.m..... East Tennessee Angus Association SALE

It was 1918 when the East Tennessee Angus Association was officially organized, but the initial steps were taken many years earlier. Some of the first available records indicate that A.H. Coleman of Mulberry Gap imported one of the first groups of Angus cattle to East Tennessee from Iowa in the year 1900. And as early as 1905, John Hitch bought 180 acres in Blount County for \$1,200, selling timber to pay for the land. Several years later in 1911, he bought his first two Angus cows, which became the foundation of the Hitch herd. Another pioneer breeder, S.N. Yearout of Maryville, set out to build a 90-head herd and held his first sale in 1917, selling 49 animals for an average of \$450. Professor Henry Rankin Duncan joined the American Angus Association in 1915 with his Sylva herd of registered Angus. Duncan, who was on staff with the University of Tennessee Animal Science Department, soon teamed up with Hitch to start the Blount County Aberdeen Angus Association. Being a visionary, Duncan believed there was more to beef production than what could be measured with the eye. As a result of a rudimentary performance program, Angus from the Sylva lineage were much larger and experienced greater growth than other, smaller cattle of the '40s, '50s and early '60s.

And so it began. In 1918, the East Tennessee Angus Association was formed and fashioned after the Blount County Association. Some historical accounts point to one of the earliest members being Dr. J.I. Higgins of French Broad Farms in Dandridge, who was a popular physician with a desire to have a famous herd and influence the breed. Higgins purchased his first Angus bull named Idolmere and later showed him at the International Grand Championship in 1919. He then purchased Perinthian, who was the 1920 International Grand Champion. But our history doesn't stop there. In 1932, C.L. Hardwick, a hardware merchant, founded Hardwick Farms in Cleveland, Tenn. Other members, including Joe Keefauver and T.J. Cawood, were instrumental in building a herd of national fame. Rumor has it that T.J. would ride one of his bulls, Eileenmere 500, from pasture to pasture while breeding cows.

Members of the East Tennessee Angus Association have continued the rich tradition of producing exceptional Angus cattle for many years. We have gone on to produce national and international champions, from Allandale Farms in the 1960s to Holly Gamble Meir in 2003. Through years of strong leaders and dedicated members, two of our past presidents went on to be presidents of the American Angus Association - Joe Keefauver in 1960 and Andy Starr in 1992. Another former member, John Crouch, served as Chief Executive Officer of the American Angus Association from 2002-06.

As we celebrate our first 100 years as an organization, there have been strong years and lean years, but the strength of the Angus breed and our exceptional breeders have stood the test of time. To all of our breeders, young and old, we say thank you. Our charge is to continue keeping the Angus breed strong for our next 100 years.

COMMENTS FROM THE SALE MANAGER – THE 100TH ANNUAL EAST TENNESSEE ANGUS SALE

On behalf of the American Angus Hall of Fame it is certainly a pleasure to be working with these breeders of East Tennessee on this outstanding sale as these consignors have certainly put an outstanding set of Angus genetics together for us to evaluate. The East Tennessee Angus Association is celebrating their 100th year, a landmark event, of one of the longest, continuous state Angus association sales in all of the land. They are offering an outstanding set of show heifer prospects, cow/calf pairs, bred heifers and an elite set of service-age bulls that are ready to work in any purebred or commercial operation. This year the University of Tennessee will host their 5th Annual Agriculture Angus Production Sale in combination with the East Tennessee Angus Association.

We are extremely excited to have the opportunity to collaborate both of these great events into one special day. As you flip through the catalog you will find an array of genetics backed some of the very best seedstock in North America from some of the very best breeders that you will find anywhere in the country.

We look forward to you being with us on March 17, 2018, at the University of Tennessee in Knoxville, Tennessee. If you have any questions, please contact any of the breeders associated with this sale or the American Angus Hall of Fame at 816/532-0811.

Sincerely,

Tom Burke

- ~ This son of Quaker Hill Rampage 0A36 stems back to a daughter of RB Tour of Duty 177 and the featured Rita 2V9 of 2536 1407.
- ~ The fourth generation dam is the all-time high income producing female of the breed.
- ~ This bull reads with exceptional growth and ranks in the top 1% of the breed for Weaning Weight EPD, in the top 2% for Yearling Weight EPD, in the top 1% for Carcass Weight and Ribeye Area EPD and in the top 20% for \$W and top 1% for \$Beef.

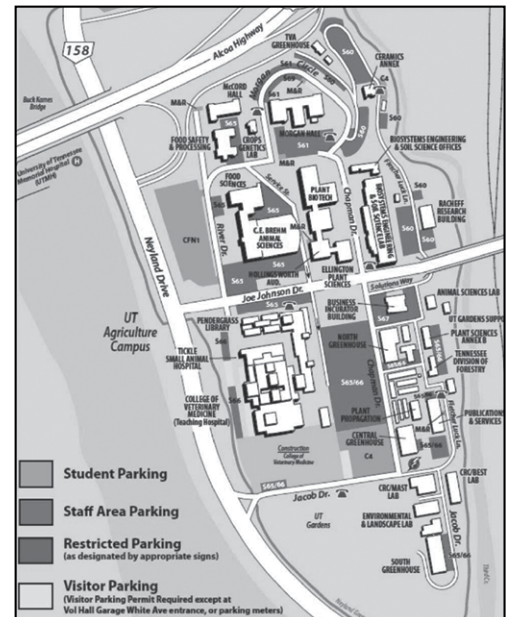

UNIVERSITY OF TENNESSEE INSTITUTE OF AGRICULTURE ANGUS PRODUCTION SALE

Bobby Simpson

Brandon Beavers

Driving Directions to the Campus of the Institute of Agriculture 2506 River Drive, Knoxville, TN 37996

From McGhee Tyson Airport

Follow U.S. 129 (Alcoa Highway) north to Knoxville. Take Neyland Drive exit and turn left onto Neyland Drive. Turn left at next traffic light onto Joe Johnson Drive on the Agriculture Campus (Agriculture Campus sign on right). Take a right at next traffic light onto Chapman Drive. Park in Lot 66 on right of Chapman Drive, behind Veterinary School.

From Atlanta

Follow I-75/I-40 to Exit 386. Exit onto U.S. 129 (Alcoa Highway) south (toward Airport and Smokies). Take Neyland Drive exit and turn left onto Neyland Drive. Turn left at next traffic light onto Joe Johnson Drive on the Agriculture Campus (Agriculture Campus sign on right). Take a right at next traffic light onto Chapman Drive. Park in Lot 66 on right of Chapman Drive, behind Veterinary School.

From Nashville

Follow I-40 to Exit 386. Exit onto U.S. 129 (Alcoa Highway) south (toward Airport and Smokies). Take the Neyland Drive exit and turn left onto Neyland Drive. Turn left at next traffic light onto Joe Johnson Drive on the Agriculture Campus (Agriculture Campus sign on right). Take a right at next traffic light onto Chapman Drive. Park in Lot 66 on right of Chapman Drive, behind Veterinary School.

From Asheville

Follow I-40 to Exit 388. Exit onto James White Parkway (left hand exit). (James White Parkway turns into Neyland Drive.) From Neyland Drive, turn right at third traffic light onto Joe Johnson Drive on the Agriculture Campus (Agriculture Campus sign on left). Take a right at next traffic light onto Chapman Drive. Park in Lot 66 on right of Chapman Drive, behind Veterinary School.

From Lexington

Follow I-75 to I-275 to Knoxville. Take Exit I-275 onto Henley Street (U.S. 441). Turn right onto Cumberland Avenue immediately after you pass the World's Fair Park. From Cumberland Avenue, turn left at fifth traffic light onto Volunteer Blvd. Turn right at the next traffic light and cross the bridge to Joe Johnson Drive on the Agriculture Campus. Turn left at the next traffic light (bottom of bridge) onto Chapman Drive. Park in Lot 66 on right of Chapman Drive, behind Veterinary School.

7:15 PM..... Dinner
8:05 PM..... Introduce Keynote Speaker
8:15 PM..... "Reflections On The Present---Visions For The Future"- Keynote Speaker
8:45 PM..... Adjourn

SUGGESTED SALE TERMS & CONDITIONS

American Angus Association • Effective February 21, 2014

*These Suggested Sales Terms and Conditions have been drafted for optional use by sellers in multiple types of transactions including auctions, internet auctions, private treaty sales and private treaty sale "bid offs." Whether to use them as drafted, as modified, or not at all, is left to the independent business judgment of every seller. They are for sellers' consideration and voluntary use.

TERMS OF SALE

Announcements

1. If there is any inconsistency in the terms of any sales materials, including sale books, supplement sheets or day-of-sale announcements, (i) the day-of-sale announcement will control over both the supplement sheet and the sale book, and (ii) the supplement sheet will control over the sale book.

Cash Sale

1. All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale.

Buyer's Risk at the Time of Sale

1. The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

Identification Responsibilities

1. Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (e.g., tattoo, hot-iron brand or freeze brand) corresponding to its registration.
2. The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies or irregularities to the seller immediately.
3. In those cases where a nickname is used by the seller, the nickname must also be accompanied by the official registered name and number of the animal.

Certificates of Registration

1. A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment.

Artificial Insemination (AI) Service Certificates

1. AI Service certificates will be the responsibility of the buyer unless otherwise specified by the seller.

GUARANTEES

Health

1. Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

Conformance with Registration

1. The seller guarantees that all sold animals are registered in accordance with the rules of the American Angus Association.
2. The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of the American Angus Association.
3. The seller guarantees to the buyer that with respect to all females exposed to multiple service sires, each such service sire will have parentage markers on file with the American Angus Association. (As adopted February 21, 2014)

Pedigree, Performance and Genetic Information

1. The seller guarantees to the buyer that the pedigree, performance data and genetic information, as represented in any sales materials (including any sale book, supplement sheet or day-of-sale announcement), are accurate. The seller shall provide "as of" date for all information from the American Angus Association database.
2. The absence of any such designation on the pedigree of an animal, as set forth in any sales materials, does not establish that the animal in question is not a carrier of any such genetic factor.
3. In those cases where a commonly understood nickname is used by the seller, the seller guarantees the pedigree of the animal based on the commonly understood nickname.

Sex

1. Unless otherwise represented by the seller, there are no guarantees that offspring will be of a particular sex.

Breeding Guarantees

1. The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; and (d) animals subjected to gross negligence by or willful misconduct on the part of the buyer.
2. The seller guarantees that all bulls are breeders for a period of 90 days following the initial turn out with buyer's herd, but only if such bulls are at least 12 months old at the time of sale and have not been allowed to run with the herd until at least 14 months of age. A bull that settles a cow by natural service and passes a fertility test performed by a competent veterinarian or reproductive technician mutually agreed upon by the buyer and the seller will be considered a breeder. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.
3. Cows with calves at their side are presumed to be breeders with no further fertility guarantee.
4. "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian or reproductive technician and determined to be safe-in-calf by examination or other proven method (e.g., ultrasound, pregnancy blood tests, and rectal palpation).
5. "Served" females are not guaranteed to be in calf.
6. "Pasture-bred" females have been exposed but are not guaranteed to be in calf.
7. "Open" females are guaranteed by the seller to be without calf.
8. Donor females:
a. Unless otherwise agreed by the buyer and the seller, a female that has been used in an embryo transfer program is not guaranteed to be a breeder after the date of the sale.
b. Unless otherwise agreed by the buyer and the seller, a female is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.
9. The seller makes the following guarantees with respect to all "pregnant recipients": (i) that the female is pregnant, (ii) that the resulting calf is of the pedigree represented, and (iii) that the resulting calf is of the sex represented (if so represented).

Semen

1. Unless otherwise agreed by the buyer and the seller, with respect to the sale of semen the seller makes no guarantees with respect to the performance or characteristics of such semen and the buyer is purchasing such semen "as is."

Embryos

1. Embryos being offered for sale will be sold "as is" unless the seller provides additional guarantees.

Privileges of Return or Adjustment: Options

1. With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.
2. Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3. If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim.

Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4. If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.

5. If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of sale.

6. If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. The Seller is responsible for all transportation expenses.

7. White skin or hair must not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer.

8. If an animal is sold and subsequently becomes ineligible for registration under the rules of the American Angus Association for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

9. If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.

10. If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.

11. Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

Disclosure or Retention of Genetic Materials

1. If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

GENETIC CONDITIONS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL.

1. In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of (1) any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by the American Angus Association) as a carrier of any genetic conditions recognized by the American Angus Association, and (2) whether the animal has a potential carrier designation on its pedigree for any genetic condition that is recognized by the American Angus Association.

Optional Guarantee: Genetic Conditions

1. The buyer and seller may determine the scope and duration of a guarantee, if any, on an individual basis. The seller may, but is not required, to provide a guarantee to the buyer relating to genetic conditions.

2. Nothing contained herein should be construed to relieve the parties from complying fully with all the rules and policies of the Association relating to genetic conditions generally or individually.

MISCELLANEOUS

1. The above terms and conditions of sale constitute a contract between the buyer and the seller of each animal and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2. Neither the American Angus Association nor any director, officer, employee or representative of the Association or any of its related entities assumes any liability, legal or otherwise, in connection with any sale or transaction conducted under the terms of the Suggested Sales Terms and Conditions. Nor shall the American Angus Association, its directors, officers, employees or representatives assume any liability or be responsible in any way for enforcing the terms and conditions of any agreement between buyer and seller.

3. Neither the sponsor or sponsors, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

4. These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale of the animal or animals occurs, without giving effect to such state's choice of law rules.

UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF ANGUS CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
