

FOUNDATION ANGUS
ALLIANCE
12th Annual Sale!

MARCH 2, 2019 • 12:30 PM
THE LULING FOUNDATION FARM
LULING, TX

FOUNDATION ANGUS ALLIANCE

12th Annual Sale

March 2, 2019 • 12:30 PM

At the Luling Foundation • Luling, Texas

SCHEDULE OF EVENTS:

Friday, March 1

Cattle available for viewing all day.

Saturday, March 2

7 a.m. - Breakfast available, sponsored by
Texas Beef Cattle Science Center

11:00 a.m. - Lunch

12:30 p.m. - Sale begins

Selling 242 Lots

163 Registered Angus Bulls

79 Elite Registered Females

SALE DAY PHONES:

(512) 844-6415 • (512) 754-1237

AUCTIONEER:

Jared Shipman
(806) 983-7226

SALE MANAGER:

Parker Friedrich
(254) 413-2420

Matt White
(530) 552-0650

AIR TRANSPORTATION:

Austin Bergstrom International Airport
Austin, Texas

Take 183 South to Luling, TX (Approx. 1 hour)

San Antonio International Airport
San Antonio, TX

Take Interstate 10 East to Luling, TX (Approx. 1 hour)

INSPECTION OF CATTLE:

Cattle will be available for inspection beginning Friday, March 1, at the sale site. All cattle will carry lot tags corresponding to sale lot numbers in sale book.

TERMS & CONDITIONS:

All cattle are to be settled for on sale day prior to load out. Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Announcements made from the sale block or supplement to the sale book take precedence over what is written in the sale book. The sale day supplement will give updated calving, breeding and pregnancy examination information.

TRUCKING:

Truckers will be available at the sale to transport cattle at buyer's expense. All shipping arrangements will be between buyer and trucker.

LIABILITY:

All persons attending the sale and related functions do so at their own risk, legal or otherwise. The owners, sale management, and hosts assume no liability for loss or damages, however so caused.

CATTLE LOADOUT:

Bulls may be loaded out at the end of the bull sale. Females will need to be loaded out following the conclusion of the sale.

SALE ORDER:

Bulls will sell first, followed by registered females. They will sell in sale book order.

INTERNET BIDDING:

If you are unable to attend the sale, bid online for free at www.dvauction.com. If you plan to bid on DVAuction, register today at www.dvauction.com.

SALE CONSULTANTS:

Wyman Poe (979) 229-0722

LIVESTOCK PRESS REPRESENTATIVES:

Terry Cotton - *Angus Journal* (816) 390-3227

Phil Stoll - *Weekly Livestock Reporter* (817) 366-7332

Jim Banner - *Southern Livestock Standard* (210) 867-6862

J. Bryan Davis - *The Stock Exchange* (254) 592-6608

SALE LOCATION:

The Foundation Angus Alliance sale will be held at The Luling Foundation, Luling, Texas. The Foundation sale facilities are on the western edge of Luling, just off Hwy. 90, on Mulberry Ave. (See map on page 2.)

DELIVERY:

Free delivery to central delivery points for purebred lots within 250 miles of Luling. In the event your purchases do not qualify for free delivery, truckers will be available to transport cattle at buyer's expense, and all arrangements will be between buyer and trucker.

AREA HOTELS:

Longhorn Suites - Luling, TX (830) 875-5442
(Approx. 4.5 miles from sale)

LaQuinta Inn & Suites - Luling, TX (830) 351-5320
(Approx. 4.5 miles from sale)

Zedler Guest House - Luling, TX (830) 875-5515
(Approx. 0.5 miles from sale)

Ainsworth House Inn - Luling, TX (830) 875-3435

Lockhart Best Western - Lockhart, TX (512) 620-0300
(Approx. 13.5 miles from sale)

Seguin Hampton Inn - (830) 379-4400

Seguin Comfort Inn - (830) 372-3990

I-10 at Hwy. 123 (Approx. 22 miles from sale)

ANGUS MEDIA

Visit the *Angus Journal* Web site, www.angus.org and view this sale book online. References: *American Angus Association*®, *AHIR*®, *AngusSource*®, *CAB*®, *Pathfinder*®. EPDs current as of Jan. 29, 2019. Updated EPDs can be viewed online at www.angus.org.

Welcome,

On behalf of the Foundation Angus Alliance, it is my pleasure to welcome you to our 12th annual bull and female sale. The cattle market continues to reward quality and performance. Cattle offered at this sale give producers an excellent opportunity to turn genetic potential into positive results. These cattle are raised in this area, so they are ready to go to work in this environment. Bulls offered at the sale have diverse traits that answer your needs for calving ease, growth, or carcass merit or a combination of these qualities.

These bulls have individual performance data and ultrasound information, as well as EPDs to use as tools to help in the selection process. The bulls have been DNA tested to increase the accuracy and reliability of their genetic prediction.

Registered females also have individual performance data and EPDs provided, along with precise pedigree information for those that are bred or have calves at side.

Whether you need bulls or registered females, we believe this offering will add value to your program. Please join us on March 2, 2019 at the Luling Foundation for the sale.

Sincerely,
Michael Kuck
Foundation Angus Alliance

It is my sincere pleasure to be writing the sale manager letter for the 12th Annual Foundation Angus Alliance Sale. This group of South Texas Breeders along with one North Texas Breeder have assembled an excellent offering of genetics to offer you in this 12th Annual event. I feel this year you will appreciate the bulls all being raised (since weaning) at the Luling Foundation for the 2nd year in a row. They were developed there in large costal traps on heavy forage rations and were sorted into four performance groups. I sorted through the bulls and placed them in a sale order. I started with what I consider the top 15 bulls, then from there I sorted the performance groups from top to bottom considering sire, performance and EPD profile. I hope this helps you sort through the bulls.

Some of my favorite individuals in the sale include the Lot 1 bull who has A.I. caliber potential. He jumped all the performance hurdles, has a stellar EPD profile and his phenotype is second to none. The Lot 2 and 3 bulls, both 1682 sons, excel from a phenotype and EPD aspect and all 3 are sons of the great N281 (high selling female in last year's offering), the Lot 5 offers an elite EPD profile and a unique pedigree combination that I love, and the Lot 10 bull is the highest \$Beef bull in the offering.

When we get into the female offering, I get more than excited about the Lot 164 lots. We sold flushes out of this female last year that went on to make the new owners over \$50,000 in progeny sales to date. Lot 166 donor is a stellar young \$Beef female and Lot 171 is one of the best EPD profile females to sell this spring. If you are looking for spring bred heifers, then you have found your event. This offering of bred heifers is awesome as well as there is a good set of fall pairs and spring calves selling. If you have any questions, please don't hesitate to contact me at 254-413-2420, Matt at 530-552-0650 or one of the guys with the Luling Foundation Group.

Sincerely,

Parker Friedrich

HEALTH:

Cattle will be accompanied by proper health certificates for immediate shipment. All sale cattle have been vaccinated for BVD, PI3, BRSV, Leptospirosis, Clostridial diseases (Blackleg), Vibrio, and dewormed. All bulls have successfully passed a breeding soundness exam.

All lots are AMF, NHF and CAF by testing or pedigree. All lots are DDF by testing or pedigree except as noted.

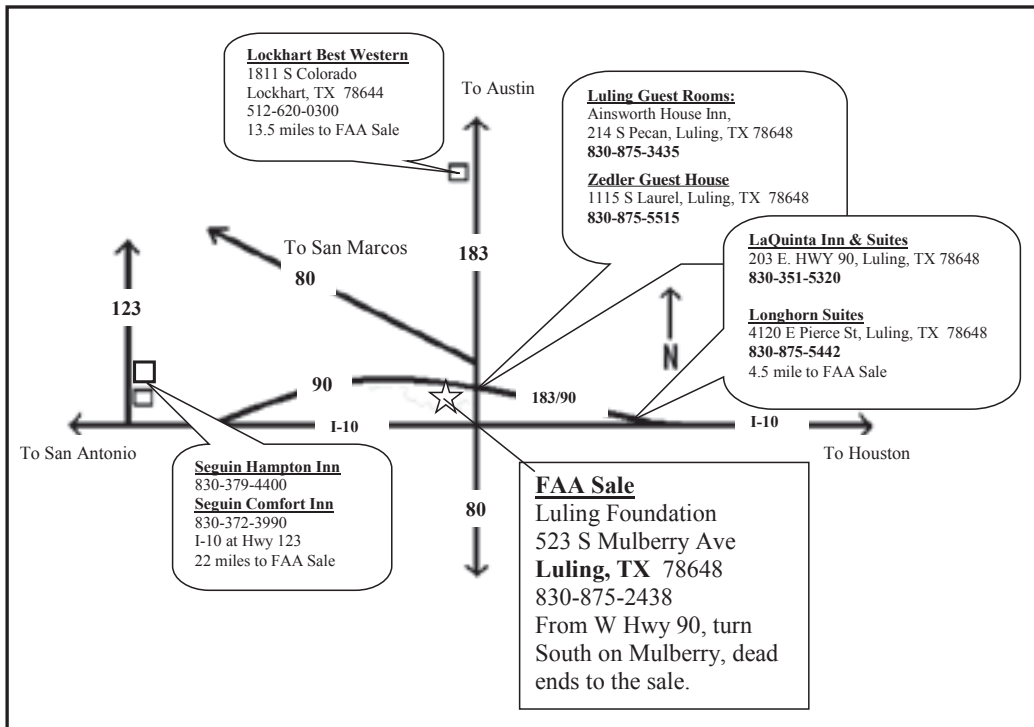

Visit www.DVAuction.com and register today!

Repeat purebred buyers from our 2018 sale will receive a 5% discount off their total purchase of purebred lots in this year's sale!

Developmental Duplications Mutation (DD) - A genetic condition inherited as a simple recessive gene was reported (8/12/13). The condition can be effectively managed by strategic DNA testing and avoidance of breeding carrier females to carrier sires. Status of bulls in the sale will be denoted in the sale book. DDF - indicates the animal is free of the mutation, DDC - indicates the animal is a carrier for the mutation, and DDP - indicates the animal is a potential carrier of the mutation.

MAP TO SALE SITE

GLOSSARY OF TERMS AND ABBREVIATIONS

Expected Progeny Differences (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

ACC: Accuracy is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability.

Growth

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Maternal

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Cow Energy Value (\$EN), expressed in dollar savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

Carcass

Carcass Weight EPD (CW), expressed in pounds, is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to a progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Ultrasound Adjusted Measurements

Adj. Yrlg. Scrotal Circ: Adjusted yearling scrotal circumference, the bull's scrotal circumference measured in centimeters adjusted to one year of age.

Adj. %IMF: The percent intramuscular fat (marbling) adjusted to 365 days of age. Heritability for marbling is in the moderate range.

%IMF Ratio: The percent above or below average (100 = average) a bull or female is for its marbling scan within its contemporary group.

Adj. Yrlg. Ribeye Area: Each bull's ribeye area measured in square inches and adjusted to one year of age.

REA Ratio: The percent above or below average (100 = average) a bull is for his adjusted ribeye area.

Adj. Rib Fat: This is the off-test backfat measured in inches adjusted to 365 days of age.

Rib Fat Ratio: The percent above or below average (100 = average) a bull or female is for its backfat scan within its contemporary group.

\$Value Indexes

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

\$QG & \$YG, The \$Grid Value (\$G) is composed of two index parts. These indexes are called yield grade value (\$YG) and quality grade value (\$QG), and are reported in dollars per head, with a higher value being more favorable.

The \$YG, the yield grade portion of \$G, is influenced by yield grade premiums and discounts along with EPDs from carcass and ultrasound databases for ribeye, fat thickness and weight. Based on these traits, \$YG has similarities to the percent retail product (%RP) EPD, but \$YG is expressed in dollars per head and reflects industry-driven economic weightings.

The quality grade component is \$QG, which accounts for contributions from the marbling EPD and the %IMF EPD in conjunction with the base industry quality grade schedules. As with \$YG, a three-year rolling average is used in \$QG to establish typical industry economic values in the index. Quality grade premiums are specified for Prime, CAB® and Choice carcasses, as well as Select and Standard discounts.

As a reminder, the \$Grid Value (\$G) combines both \$QG and \$YG, and may be the best carcass decision tool for focusing on quality and red meat yield simultaneously. The use of \$QG and \$YG separately is intended for specialized emphasis in a particular carcass value area.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Trust us to be your ranch partner.

Loans tailored to fit your needs

At Capital Farm Credit, we believe in the Texas rancher. We work hard to earn your trust and keep your business. Whether you're looking to finance ranchland or improve your operation, our team of experts is here to help you grow. We even have special programs for beginning farmers, ranchers and veterans. And as a cooperative, our patronage dividend program has returned more than \$750 million over the past decade.

Together we're better.
Partnership that really pays.

BUY BULLS ON TARGET

The Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the *Certified Angus Beef*® brand. Bulls must be at least breed average or better for marbling EPD and \$ Grid of non-parent Angus sires to qualify for use of the Targeting the Brand logo. Even when these numbers do not appear on the catalog listing, the logo gives you confidence that these minimum genetic requirements are met. Actual EPD requirements are outlined below based on the breed averages from the Spring 2019 Angus Sire Summary.

Genetic Recommendations:

	Value
Marbling EPD (Marb)	+ 0.53
Dollar Grid Carcass Index (\$G)	+ 34.09

To learn more about how commercial cattlemen can further utilize the Targeting the Brand logo in marketing genetically superior feeder cattle, visit www.AngusLink.com

LIVESTOCK NUTRITION CENTER

BETTER FEED, BETTER RESULTS

Livestock Nutrition Center specializes in blending customized rations, supplements and premixes to meet the specific nutritional needs of your operation. We understand that management, performance objectives and feeding practices can be vastly different between operations, and that these differences dictate specific nutritional or formulation requirements. Our experienced sales staff will work with you to design a feeding program that is specific to your operation.

Livestock Management and Marketing Solutions

Angus breeders have a multitude of bulls to select semen from and it can become confusing and intimidating. Often semen merchandisers show only photos, pedigrees and the number of straws that have been sold. My service provides specific information on 1,100 sires or their progeny I have personally evaluated. Together we can match sires and your cows to achieve your vision. If I haven't seen the sires or their calves, I rely on a huge network of renowned cattlemen and women who share their unbiased appraisals with me.

I Provide:

- | | |
|--|--|
| <ul style="list-style-type: none"> ✓ Semen on the best Angus Bulls ✓ Embryos from proven genetics ✓ AI Supplies and Sync protocols ✓ Health Supplies | <ul style="list-style-type: none"> ✓ Visual evaluations of cowherds ✓ Marketing Options ✓ Bull and Female procurement ✓ Unbiased information for vital decisions |
|--|--|

I will call you back, I will answer your questions, I will find the sires you want!

Wyman Poe 205 Church Street Navasota, Texas 77868 979/229-0722

ENGINEERED TO PERFORM. BUILT TO LAST. DESIGNED TO HANDLE IT ALL.

Looking for a hard-working workhorse you can rely on? Case IH Maxxum® series tractors deliver the power, performance and efficiency your livestock operation demands. Powered by FPT engines, these versatile tractors are built to take on fieldwork, loader work, and everything in between. Choose from Maxxum ActiveDrive 4 16×16 semi-powershift transmission and 2WD, Maxxum ActiveDrive 8 24×24 dual-clutch transmission or Maxxum CVXDrive™ configurations to suit the needs of your operation. So whether you're hauling, mowing, loading or cutting, there's only one tractor series engineered for maximum productivity – Case IH Maxxum.

CALLAHAN'S GENERAL STORE

"Austin's real general store"

Feed

Our Feed Department has been serving Central Texans since the late 1940s originally as Capitol Feed and Milling and then expanding into Callahan's General Store.

Animal Health, conventional and organic pet and livestock feed, farm and ranch fencing, saddles, tack and show supplies are all for sale. Chicken, pigs and goats are on display every day of the year.

If you need to exercise your green thumb, we have you covered from start to finish with seasonal bedding plants, conventional and organic fertilizer, seeds and the knowledge to get you going.

Callahan's General Store

501 Bastrop Highway / 183 S.
Austin, TX 78741

Phone: 512-385-3452

An amazing opportunity to IVF flush this phenomenal donor to the bull of your choice. 6S66 took the breed by storm when she sold two flushes for \$21,000 each. This big spread female expresses added growth with outstanding carcass merit and outstanding end product values. 6S66 is the number 3 \$B among all active dams in the breed making the return on investment countless.
