We certainly appreciate your interest in our cattle, and it is with mixed emotions that we welcome you to our sale. It is never easy to sell good cattle, and we hate to see these go. But it is time to turn a new page for our family, and the changes facing us will be easier met without the cows in the equation.

I think you will find many opportunities in this group of cattle. They represent the base from which we were planning on building our herd, and they will be excellent additions to your herd, or a base from which you can start as well.

The cattle should be ready to go home and go to work. The females have been worked and are ready to go back to grass. The fall calves will have been weaned approximately 40 days, and had all their shots by sale day. The bulls will be ready to turn out with your cows. Our system of developing bulls has worked well for our past customers, and I think it results in a group of bulls that will go to work and not fall apart.

I want to thank all the friends I have gained over the past years in the Angus community. Many of those business relationships have turned into valued friendships that I can't begin to tell you how much I appreciate. I especially want to thank those friends and neighbors that have helped prepare for this sale. I couldn't have done it without you.

Thanks again for your interest in our cattle. If you have any questions please don't hesitate to call.

Nathan Crabtree
