# HOBBS ANGUS

Welcome to the 2019 HOBBS & EATHINGTON ANNUAL BULL & FEMALE SALE.

We have been pleased hearing all the positive comments on our sale.

This year's sale consists of 50 bulls (45 yearlings and 5 2-year-olds). All these cattle are, by far, the best we have produced. When the fitters clipped, they commented that they were the biggest footed and soundest bulls they had clipped. We give you the most accurate EPDs we can produce with the genomic test and AHIR records.

We will still keep any yearling bull that brings \$4,000 free of charge until May 1 and a \$50 refund if you take the bull home sale day. We will keep other bulls for \$5 a day until May 1. We will not be liable for injury or death of your purchased bull and recommend you purchase insurance. An insurance agent will be available. The 2-year-old bulls are ready to go to work. They will be available to take a look at in the pens, but we will not be bringing them in the sale ring and they will go home with you sale day.

We have an excellent set of yearling heifers. All are vaccinated and ready to breed. Our cows are the right kind (some with calves). All vaccinations are up to date with Huston Vet Service. All cattle have been tested for BVD and we are a Johne's free herd. The bulls have been semen tested by Huston Vet Service and are 100% guaranteed breeders.

We would again like to thank our friends at the Fairview Sale Barn and IMS--Bob, Jake, Laura, Bob Garber and Ray Johnson. We are very proud to still have the World Champion (Brian Curless) as our auctioneer.

I would like to thank Marcy and Juan (our dedicated help) at home. Also a big thank you goes to our family.

We are very proud to have Eathington Angus join us in our 8th sale together and they will tell you about their offering.

Yours for better beef,  
Bud & Deb Hobbs

*Kyle, Katelyn, Emma, Ella, Patty & Kevin Eathington*

As always, we are very appreciative that the Hobbs Family allows us to be a part of their sale, and we are delighted to be participating in their 42nd year of success! Thank you for taking the time to review this sale book, and we look forward to seeing you on sale day.

At Eathington Angus, we focus on genetics that will go and work for the producer. Cattle on this operation work for us and are not pampered. As input expenses keep increasing, we decided to not offer creep feed to our calves because we wanted to see how much weight our cows can put on their calves without supplementation. We were extremely pleased when our weaning weights were the same as the previous year and in some instances, full brothers were weighing more than they did the year before. Once bulls were weaned, they go on a high roughage diet. We do this so that our bulls will go home and work for you and not fall apart in the first breeding season.

This year we also made the hard decision to sell some of our top show heifer prospects. These heifers are an excellent combination of show pedigrees with the potential to be great production females, which were bred for performance and still have eye appeal.

Please know that all the bred heifers are confirmed AI. All of our vaccination program is the recommendation of the Huston Vet Clinic.

Many thanks to everyone that allows this sale to be a success: Hobbs Family, Huston Vet, Fairview Sale Barn, the Fiddler family and others.

Kevin & Patty Eathington

You cannot find a more attractive sire of calving-ease genetics. He is a bull that combines calving ease with above average growth. His calves possess a large amount of vigor which enable them to get up and nurse. His calves are deep bodied, wide-based and thickly made. Genex refers to him as "bet-the-ranch calving-ease sire." 17 sons sell.

He is a multi-purpose sire with proven data to back him up. Offers unique mating flexibility with a pedigree stacked with highly proven cow maker sires. This bull was used mainly because of his ability to transmit growth and muscle expression while adding capacity and base width. I love the disposition on these calves, but also I love the depth of rib on these bulls.

He provides an outcrossed pedigree stacked with high maternal sires that have stood the test of time. Sires are eye appealing cattle that are deep bodied, level hiped, and possess structural integrity. He is known for improving foot and leg structure, and his daughters have excellent quality udders. These calves are extremely docile. Personally, I have noticed the calves have an excellent disposition and are a larger framed animal with more weight.

He is an expressive muscled, masculine sire with a huge top and a bold rib shape. He is level in his design and has a tremendous base width. His dam is one of the most prolific high impact donors in the Angus breed, and she stems from the legendary Isabel cow family. Calves have been doing excellent on feed conversion.

He transmits added frame, stoutness, length of body and a square hip making his prodigy easy to look at. He improves foot quality and was excellent to use on smaller framed cows that need more performance. This is not a true calving-ease bull. He is a power bull that will put weight on your calves at the time that you sell them.
