Welcome to the Kington Angus Ranch Annual Production Sale in Abilene, TX. We are excited to have you attend and hope you can join us at lunch for some good old Texas Country Cookin'.

As part of the sale we are offering a great set of bred heifers. These animals are bred to some of the top bulls in the industry. In addition, we are excited about our bulls in this sale that have been tested and ready for pasture. A few of these bulls have been working for the last 90 days, but I put them back in the sale due to their outstanding performance. In addition, we decided to cut back on some of our numbers and are offering 19 cows. They are also bred back to, again, top bulls in the business. These cows are 7-, 8- and 9-year-olds and have many good years left in them. We believe we have a well rounded offering with young quality heifers, a great set of bulls and a nice set of bred cows with calves. At Kington Angus, we strive to raise cattle with good performance and longevity.

On behalf of Kington Angus, thank you for your attendance and the opportunity to take home some really nice animals.

Jim and Connie Kington

SAV Final Answer 0035 is a proven and reliable calving-ease sire who covers all areas of economic importance. He is a \$15,000 co-top-selling bull of the 2001 SAV Sale and at nine years of age his popularity continues to soar setting new records as the No. 1 volume semen selling bull at Genex/AI Stud for the past three years.

Final Answer's progeny are unique, arriving with consistently modest birth weights and then performing well to weaning and yearling time. They mature early while displaying the kind of true thickness, muscle, and shape that you rarely find in low birth weight cattle.

His daughters are moderately framed, early maturing and very complete with excellent maternal and fertility characteristics. A son, SAV Pioneer 7301, was the top-selling bull of the 2008 SAV sale and a maternal sister was the lead-off female. His service sells throughout!
