

A close-up, black and white photograph of a horse's head, focusing on its eye. The horse is wearing dark sunglasses. The lighting is dramatic, with strong highlights on the horse's hair and the reflection in the sunglasses, while the rest of the scene is in deep shadow.

- Sells with a heifer calf born 7/15/18 by Jindra Acclaim.
- Sorting as the only non-parent female with her combination of CE, BW, WW, YW, CW, MB, RE and \$B. These eight EPDs and indexes may be the most highly used sorting criteria in the Angus database. If you have used them, there is no doubt you have found this female.
- The best part in person is her docility, superior look and easy fleshing ability. She is always a standout for visitors and will add value with her type and kind to an unmatched set of EPDs.
- Her mating to Jindra Acclaim will make for a 12 CED, .6 BW, 80 WW, 153 YW and 209 \$B offspring.

- Sells ready to flush or breed to the bull of your choice.
- This is the only dam in the Angus database for her massive combination of WW, YW, CW, RE, Fat and \$B. To find a donor that puts pounds on the ground in a hurry, you will not find one qualifying anywhere close to these outstanding figures to generate red meat yield. Her donor dam, Callaways Ideal 1031, was once the breed leader for \$Beef while carrying the tradition of great maternal ability in the Ideal cow families.

## Lots 3A and 3B

These two full sisters represent the potency of their prolific and wildly popular grandam "643T." To this day, 643T will blow you away with her power, correctness, and foot quality. These females follow their maternal legacy of thickness and eye appeal and can always be expected to be standouts on ranch tours. Their mother, "1044," was the \$64,000 purchase by Vintage from Pollard's and as a seven-year-old can even match any non-parent for EPD strength. Look to these females' DNA scores and find them to be big-time red meat enhancers. The Lot 3B donor is the only female in the breed to add up her WW, YW, HP, RE, and \$B. Check out the favorable \$EN to \$B combination as well.

- Due 9/23/18 to Baldrige Colonel C251.
- The only non-parent female in the breed for her EPD combination of CED, BW, WW, YW, SC, DOC, \$W and \$B! Full sister to V A R Legend 5019, the \$35,000 2nd top-selling bull of the 2016 Vintage Carcass Maker Bull Sale. Two maternal sisters and a full sister commanded over \$40,000 at Vintage that fall to Express, Spruce Mountain and Hillhouse. Another maternal sister went to High Roller for \$25,000. The value of the "1044" female has been well documented. Her full brother, Legend, has been seeing heavy use in AI programs across the country.

- Bred 5/20/18 to Acclaim.
- The largest spread from BW to YW of any Sitz Top Game dams in the breed. With nearly 2,000 birth and wean weights under his belt, Top Game has been a muscle enhancer with a maternally driven pedigree outcross to many Angus with his level of carcass. Tied into one of the all-time great Angus cows, Basin Lucy 178E, on the baseline of the pedigree takes the maternal ability, marketing, and value of this female to a whole new level. Her flush of Baldrige Colonel calves will stop you in your tracks.

- Three top E.T. heifers from this powerhouse mating of muscle on muscle. The much-needed width and red meat we strive for is on full display here. The best of both worlds collides when you study the paper to find bred average birthweight for such powerful cattle going to top 1% for growth, scrotal and great docility. Moderation of mature frame should be expected while keeping all your carcass traits and enjoying the big value in \$W and \$B.

- Sells ready to flush or breed to the bull of your choice.
- Combining maternal and terminal traits into a diverse pedigree has been a challenge to all animal breeders since the beginning of time. This young, fresh, outcross female had bridged that gap with the ever so critical maternal traits of SC, HP and DOC stacked on top of the only EPD profile for her level of WW, YW, CW, MB, RE, \$EN, and \$B. Simply put, this female's unmatched sorting ability for EPDs tied to her unique pedigree and beautiful outline could leave a big impact and lead change in the Angus breed. Across her DNA panel she comes out with an average score of 26 showing her unique ability to excel in many traits.

EXAR Rita 8153 - Donor dam of Lot 8.

- Her mother posted 3 WW@108, 3 YW@107 and kept a calving interval of 4@375 days out of the Henke Angus herd in Missouri known for no-nonsense, big growth cattle with great maternal ability.
- You won't find footnotes of her siblings or offspring making sale reports yet. That's why we love the idea of this female so much. She is the beginning of something unique and something real.

- Due 3/4/19 to Byergo/Double GG Blackstone.
- This will represent the first opportunity to purchase a pregnancy with GE EPDs by the American Angus Association. We understand the value of feeling secure when purchasing future genetic packages like these. So, we took the guesswork out and are delivering the missing link in unborn genetics, and that's the DNA and ultimately the EPDs.

- Due 2/7/19.
- The donor dam, owned with Gabriel Ranch, is a classic power and growth cow ranking in the top 1% for WW, YW, CW and \$B. She is one of only 20 dams in the breed for that high of a combination plus her awesome docility. Mated to one of the most unique bulls in the breed to offer big scrotal and marbling with a low mature frame with all the shape and muscle one could ask for with a super cool look all the while being as outcross as can be.

• The only Rampage daughter in the breed for her level of WW, YW, CW, RE and \$Beef combination. Her now famous mother originally sold to High Roller for \$176,000 as their first Angus female ever purchased. She later went on to sell to Joe Phillips 1/2 interest for \$210,000. Six maternal sisters to this heifer between 44 Farms and High Rollers 2017 sales have averaged \$50,000. The grandmother, "1022," has made a mint in the three short years she was active in the business and is leaving a big legacy of value for Angus producers across the country.

DSA Ten X 1022 1433 - Dam of Lot 13.

• What an impressive show of CED, BW, WW and YW. In fact, she is only one of four non-parents who combines her level of CED, BW, WW, YW and SC. She has an attractive pedigree and goes back to Bohi Primrose 6363 who worked in donor pens for Bohi, Vintage and Spruce Mountain adding muscle and eye appeal to each mating. She, of course, is a granddaughter of Primrose 2424 and this heifer today carries on that impressive maternal legacy.

- Due 12/22/18 to TEX Playbook 5437.
- Only one of 16 females in the breed for her massive combination of WW, YW, \$W and \$B. When you add in her CW and RE, she becomes one of only three heifers in the breed with that incredible package. She comes from the powerful and popular Lady cow family made famous at Riley Brothers and Linz Heritage Angus that gave the breed the number one registration sire, Tour of Duty, and an abundance of high value donor dams. Three full sisters to this female averaged \$16,000 at the Powell Farms sale in Limestone, TN in 2017.

- AI 6/13/18 to V A R Heritage 5038.
- Out of the legendary and powerful \$500,000 sister to Quaker Hill Rampage. Between the dam and grandam there has hardly been two cows that have placed more bulls in stud than these two. The revenue generated from 6E2 and her descendants are countless today.

Quaker Hill Blackcap 0A32 - Dam of Lot 33.

Cell: 254-413-2420  
Home/Fax 254-968-8162

What an exciting opportunity to be able to join Wes Tiemann and bring the Angus world Lazy F's First Annual Angus Production Sale. Lance Fenton has tackled the Angus world in full force and in a short period of time has assembled one of the most productive, highly progressive Angus herds in the nation. He, along with his manager Butch Green, have taken these genetics, managed them in the East Texas environment, and have made them flourish from a performance, embryo production and breed up standpoint. These guys are using the latest and greatest techniques that have been developed as you will see, and this will be the first time in history of Angus sales to be able to purchase at auction a confirmed pregnancy that has a full set of EPDs generated by the American Angus Association.

The offering is deep with good cow families and some of the most unique EPD profiles as you will find anywhere. The Lot 1 cow is truly the definition of the complete Angus donor matron. As you will see for a two-year-old raising her first calf, she has a stunning phenotype and you truly have to admire the power she exhibits and when you look at her pedigree stack and EPD profile, I believe like me you will find this one is special. The Lot 2 cow is a daughter of the great foundation matron 1031 and is the dam of the first genomically enhanced EPD heifer pregnancy to sell at public auction and with a +99 WW, +184 YW and a +211 \$Beef, I'd say she's pretty special as well. The Lot 3's are out of the famous dam of V A R Legend and these females may be some of the most sought after genetics in the country today. The Lot 4 female is just flat out one of my favorites, nowhere in America have I seen a 9Q13 daughter with the power, body mass and eye appeal that this one has, and still has an elite EPD profile that ranks in the top 1% for many traits. I could go on forever on this event; but in short, I'll just say this is a must attend event.

If you have any questions or concerns about the offering, please don't hesitate to contact myself at 254-413-2420 or Wes Tiemann at 816-244-4462, both of us will give you a fair evaluation and an honest opinion on any question asked. We look forward to seeing you in Bullard, Texas on Labor Day to enjoy a great Angus offering and some elite Texas hospitality in the new elite air-conditioned Lazy F Sale Facility.

*Parker Friedrich*

- Bred 5/20/18 to Baldrige Alternative E125.
- The dam of this female is the full sister to EXAR Elway 2070B who stands at ORigen and is owned by Friendship Farms and Scottish Right. The dam is also the maternal sister of V A R Legacy 4409 owned with VAR, Genex, Green Valley Cattle Co. and J/V Angus. Grandam W99 was the \$85,000 Express and Vintage selection from Riverbend and later went on to sell for \$44,000 to Ankony Angus Corp Inc.

- Due 1/18/19 to MGR Rito 4119.
- What a beautiful female. Perfect in her lines and deep in her body and feminine in her look. The Black Granite daughters have been front pasture kinds everywhere as is this one. She goes back to the good Isabel cow family from Mill Brea Ranch in KS.

- Sells ready to flush or breed to the bull of your choice.
- One of only two Total Impact dams in the breed for her level of WW and YW. She comes from the Callaways Ideal cow family that had been a source of great females. Her mother, Callaways Ideal 1031, was purchased for \$50,000 by Cox Ranches. She is a beautiful, big and bold female.

- Due 10/18/18 to Baldridge Colonel C251.
- In the top four of all EXAR Stud 4658B daughters in the breed for her WW, YW and \$B combination. She comes from the famous Basin Lucy 178E cow family out of the \$100,000 valued Basin Lucy 3829 female that led off the Basin cow herd dispersal in 2010. She is a salty looking heifer coming with a calf by the muscle enhancing Colonel that sold for a record \$580,000 in the 2017 Baldridge Brothers sale and paid for himself in semen sales and certificates in one year.

- Due 10/16/18 to EWA High Weigh 3123.
- Excelling for the maternal traits of scrotal, heifer pregnancy, docility and milk. This female has the pedigree and stats of being one maternally geared Angus heifer. She is ideally matched up with the big spread, long sided High Weigh bull from Select Sires.

- Due 11/11/18 to Baldrige Colonel C251.
- A granddaughter of a cow who needs no introduction other than "6108". She and her progeny have altered the value of Angus cattle in recent years and have left a huge swath of increased carcass genetics from coast to coast. The mother of this four-year-old is a prime example as she was valued at \$36,000 and at one time was one of the top \$Beef females in the breed.

64	49	47	59	73	58	74	19	51	58	3	82	83	43	5	21	84	32

- Due 11/10/18 to MGR Rito 4119.
- Sired by a bull who has seen more longevity and relevance in the breed as nearly any bull, especially in recent history. The added value is a Complete 1P55 daughter on the bottom side of the pedigree. You can find a slug of Complete daughters who have received FSH at some point in their life. Time tested and proven pedigree without losing any EPD value. Daughter sells as Lot 58.

Jindra Acclaim - Service sire to many lots in this sale.

# TEAMWORK MAKES THE DREAM WORK

**EMBRUON**  
EMBRYO BIOPSY

*"It has been our pleasure to work with Lance and the team at Lazy F Ranch in providing genotypes for the embryo pregnancies in this years female sale. We feel that this cutting edge technology will offer significant value to you the customer. If you have any questions about embryo biopsy and genomics please feel free to call. We will be happy to discuss different option available for you and your program."*

*- Matt Barten, Embruon*

[www.embruon.com](http://www.embruon.com)

**SUN VALLEY**  
EMBRYO TRANSFER

*"If we believe Genomic assessment of an animals production capability has value, then the earlier we collect that data the more valuable it becomes. Genetic potential is established at conception, so collecting data 7 days later is about as early as it can happen. Embryo biopsy will allow cattlemen to make marketing decisions and plans much earlier in the production cycle. Working with Embruon and Lazy F to produce the pregnancies offered today has been challenging but extremely rewarding and we are grateful for that opportunity."*

# EMBRYO GENOTYPING

A cutting edge technology developed by Embruon speeds up the rate of genetic change.

- Step 1:** Collect fertilized embryos.
- Step 2:** Biopsy embryos to collect cells.
- Step 3:** Amplify DNA.
- Step 4:** Genotype and send to Angus' weekly genetic evaluation.
- Step 5:** Make earlier selection decisions based on an entire EPD & \$Value profile.

Embryo genotyping allows members to identify superior genetics earlier than previously possible. By using the genotype and pedigree information, GE-EPDs and \$Values can be predicted on those embryos even before the calf is born. Producers should note that once a calf is born it will need to be re-genotyped and parent verified in order to receive GE-EPDs on the resulting registered calf.

dedication.*

**Ryan Cox**  
Cowherd Manager

Dear Angus Breeders,

Lazy F is proud to present its first Angus sale to the public at our sale facility in Bullard, TX. We like to stay on the cutting edge of technology and genetics and it has led us to the unique opportunity to offer the “fast forward” genetics that we have today.

This will be the first time in history to purchase at auction a confirmed pregnancy that has a full set of EPDs generated by the American Angus Association. The security of having a known set of EPDs rather than parent estimates in a confirmed pregnancy was important for us to offer to the Angus world. Like everything we do, we are going all in and are offering the donors of these matings as well so you can replicate the process again.

Lazy F held no cattle off limits when it came sale selection time. The first 13 lots average +185 \$B with the entire sale offering averaging in the top 5% of the breed for WW, YW, \$W and \$B. The #1 Treasure daughter in the breed for \$B will be going through the sale ring, and we think you will love her phenotype.

You will find many outside-the-box pedigrees and breedings that have yielded big results. The genetic diversity and finding a new twist on Angus excites us, and we hope it will spark some interest from you as well.

We enjoy our time with other Angus producers and appreciate the friendships garnered along the way. At Lazy F, we kind of know how to have a good time and hospitality is a specialty. Join us the night before for the Salt Tequila Margarita party at the Lazy F lazy river. Featuring live music, craps, blackjack and amazing food. Do not miss the rubber duck races located at 8346 CR 1161, Tyler, TX 75703.

All the best,  
Lazy F Ranch Crew
