* Ask for the Missouri Angus Block of Rooms.

LOT NUMBERS: The tags on animals will correspond with the lot numbers in the sale book. Ear tags on calves at the side of dam correspond with the dam's number.

HERD HEALTH: All cattle will be accompanied by proper health certificates for immediate shipment. All bulls have passed a semen test and all bred females have been pregnancy checked and confirmed bred.

TRUCKING: Truckers believed to be reliable will be available to assist you in shipping your purchases.

BREEDING INFORMATION: A supplement sheet will be available sale day with complete and up-to-date breeding and calving information. Announcements made from the auction block regarding the cattle selling in this sale take precedence over information listed in this sale book.

JACKPOT HEIFERS: Each heifer eligible to show in the Missouri Angus Jackpot show has been designated with the Jackpot emblem. All of the heifers with this emblem have been nominated to show in the Jackpot Show in June at the Missouri Angus Preview Show and will be eligible for cash awards including a \$500 cash prize for the champion female.

TERMS AND CONDITIONS: Cattle will sell under the Terms and Conditions of the American Angus Association (https://www.angus.org/pub/suggested_sale_terms.pdf). In addition, all breeding age bulls (Lots 65-81) sell with a first breeding season guarantee as defined on page 1.

LIVESTOCK INSURANCE: Insurance will be available sale day for your purchases through Steve Miller Insurance Agency, (660) 582-1334.

FOOD AND REFRESHMENTS: Will be available show day and sale day by the Missouri Junior Angus Association.

This sale book can be viewed online by visiting the Missouri Angus website at www.missouriangus.org

All cattle selling are either tested free of AM, NH, CA, D2 and M1 or have no pedigree risk. All DD status is included in this sale book.

ANGUS MEDIA Visit the *Angus Journal* Web site, www.angus.media and view this sale book online. References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®. EPDs current as of Jan. 19, 2018. Updated EPDs can be viewed online at www.angus.org.

Missouri Angus Breeders' Futurity

Dear Angus Breeders and Cattle Enthusiasts,

On behalf of the Missouri Angus Association and its over 500 members, it is my pleasure to invite you to join us as we celebrate the 61st Anniversary of the Missouri Angus Breeders' Futurity. The Missouri Angus Association has long been recognized as one of the premier state associations and is honored to have the opportunity to bring elite cattle together from across the state for your appraisal. As we celebrate the great tradition of offering high quality Angus genetics, we look forward to assisting our members in marketing their lots to cattle enthusiasts across the nation.

Following in our tradition, we are excited to offer an excellent female division featuring something for every cattle breeder! Many breeders have made the tough decision to share with you their females out of their donor pen. From show heifers that already have purple in their pedigree to donor prospects, the female sale offering is worth looking through from Lot 1 to 60. Whether you're looking to walk into the showing or turn her out in the pasture to let her do the work for you, we are confident we have a purchase for you to consider. And don't forget, these females are already broke, so you can always do both! With many entries sired by the most popular A.I. sires in the country, the quality runs deep. Also noteworthy is the EPD section of the lots highlighting cattle that stand in the top 1% for WW, YW, \$F, \$B and other EPDs. Make sure to check out our live lots as well as our two confirmed heifer pregnancies and four embryo offerings.

Our bull offering, Lots 61-81, is an opportunity to leave a mark on your operation with powerful herdsire prospects. Purebred and commercial cattlemen have the ability to purchase bulls that will help move their programs forward. The set of bulls assembled represent some of Missouri's finest genetics and breeding programs. As in previous years, we have seen the success of Futurity bull purchases on cow herds and in the showing from north to south and east to west. We are proud to offer this set of bulls for your appraisal.

You are invited to join us in Columbia to celebrate the 61st Annual Missouri Angus Breeders' Futurity. The weekend will be action packed with the show, junior showmanship, annual meetings and banquet on Saturday. You can join us on Sunday in person, on the phone or online through DV Auction, for this exciting sale offering. It is a pleasure to work with Missouri Angus Association members and along with the consignors, we look forward to our February event. If I can answer any questions or be of assistance to you, please do not hesitate to contact me.

Sincerely,

Julie Conover
Missouri Angus Association, General Manager

MISSOURI ANGUS BREEDERS' FUTURITY BULL GUARANTEE

The seller of every breeding age bull in the Futurity Sale guarantees them to be fertile at the time of sale. All bulls have undergone a breeding soundness evaluation and are guaranteed against breeding injury for the first 90-day breeding season. This guarantee is in place for bulls sold during the bull portion of the sale and does not encompass bull calves at the side of dams. The breeding season begins the first day the bull is exposed to cows and the 90-day breeding season guarantee will not extend past June 30, 2018. Should a breeding injury occur to render the bull functionally infertile during the first breeding season guarantee time period, then a refund minus the salvage value of the bull will be issued to the buyer by the seller. If an injury should occur, the buyer must notify the seller as soon as possible and prior to the injured bull being sold for salvage. This guarantee is not a life insurance policy. There will not be a refund if the animal is killed or dies for any reason. This guarantee is in addition to the Sale Terms and Conditions of the American Angus Association, which also apply.

61st ANNUAL MISSOURI ANGUS BREEDERS' FUTURITY

2017 Grand Champion Female, Meyer Elite 1637 - Consigned by Meyer Cattle Co., Curryville, MO and purchased by Woodruff Angus Farm, Milton, IA.

Presented by Hillside Angus Ranch, Pierce City, MO.

We are excited about the future of this show heifer and donor prospect. This classy young female has a loaded pedigree in terms of show ring appeal and proven, functional, real world cattle. She is sired by one of the most popular Angus show bull sires, Colburn Primo 5153, and the bottom side of her pedigree goes back to the nationally renowned BC 7022 Raven 7965 as well as a full sister to "Connealy Dateline," Eila Eila 755P of Whitestone. H S Eila Eila 944 367 has all kinds of backdrop potential and the cow power to generate as a breeding piece.

This October born heifer has been a standout from the beginning. She is an own daughter of the nationally popular SAV Resource 1441 and stems from the Clearwater Eriskay cow family that has been a no-miss set of females in the Drechsel Angus Farm program. There is no limit to the future in this young female.

Backed by proven performance in and out of the show ring, this sweetheart show heifer prospect has been primed for handling by a first-time competitor. Maternal performance and longevity dominate her strong pedigree, offering the opportunity for years of production. This heifer's numbers are backed by genomically enhanced EPDs and she is a prime fit for raising Show-Me-Select bulls.

An outstanding July show prospect sired by the 2016 Forth Worth Reserve Grand Champion 5T Power Chip 4790 and backed by a very good Vin Mar O' Reilly Factor daughter from the famed Forever Lady family. The dam of this female is a flush sister to the very popular cow/calf pair that we sold in the 2017 MO Angus Futurity for \$6,800 to Lappe Farms. This female has lots of look and style with a beautiful hip and hind leg set.

Presented by Osage Grass & Livestock, Eagleville, MO.

This fancy show heifer prospect offers exceptional phenotype along with an outcross pedigree. She is stacked with generations of Osage Grass & Livestock genetics and stems from their foundation Burgess cow family that has produced multiple successful females for Mardee. This heifer brings together the style and power needed to surface in the showing and transition into a great young cow.

Act. BW 78, 205 Adj. 709, ratio 109.

Presented by Drechsel Angus Farms, Boonville, MO.

Genetic potential is written all over this show heifer. Her pedigree combines two of the great breeding programs outside of the state of Missouri, Schaff Angus Valley of North Dakota and Champion Hill of Ohio. DAF Emblynette 1745's maternal great-grandmother, SAV Emblynette 7319, has produced over \$750,000 worth of progeny. The Emblynette cow family has surfaced as champions at numerous Angus shows across the country. This exciting young show prospect combines a great amount of rib, muscle and femininity.

Presented by Lewis Angus Farms, Unionville, MO.
 Here is a special entry right out of the Lewis Angus Farms replacement and future donor pen. One of the somewhat limited opportunities to buy a V A R Xfinity 3009 daughter. "Xfinity" is a resident herd sire at the Brinkley Angus Ranch in Milan, MO and is a "Ten X" son that has proven to be a potent breeding bull. This heifer's fault-free build is only the beginning of the story she has to tell in terms of breeding potential. She has an EPD profile that reads strong for CED, top 4% for WW, top 5% for YW, top 2% for \$W and top 10% for \$B.

Presented by Triple C Cattle Co., Middletown, MO.
 An incredible future breeding piece that combines breed-leading genetics and an attractive phenotype. This maternally bred heifer is long spined, feminine through her front 1/3, and very correct in her design. Genetically, she blends the popular RB Tour of Duty 177 with the legendary Forever Lady cow family. She ranks in the top 20% of the breed for CEM, \$B and \$G and the top 10% for Milk, RE and \$W. This one is bred for success both in the ring and in the pasture.

Presented by Driftwood Holding Trust, Ava, MO.
 DHT Rampage 902 Maid 196 is a female with loads of style and body. She is the product of a very strategic mating made here at Driftwood Holding Trust that combines Quaker Hill Rampage 0A36, JMB Traction 292 and Baker's Blackbird 7170. This special heifer ranks in the top 1% for RE, \$G and RADG and the top 10% or higher for \$B, \$F, \$W, Fat, CW, YH, YW and WW.

Presented by Tebbenkamp Show Cattle, Corder, MO.
 London's calling but you won't have to fly across the pond to find this one. An own daughter of the immortal "First Class" and the popular "Dixie Erica" cow family on the dam's side. She is stout and big bellied! Once her show career is over, you will be able to lead her from your show barn straight to the donor pen. Big potential here!

2017 Reserve Grand Champion Bull, Hunters Wyatt Earp 536 - Consigned by Hunter Angus, Fair Grove, MO and purchased by Branbrook Farms, Kidder, MO.

Presented by Meyer Cattle Company, Curryville, MO.
 This female represents what Meyer Cattle Co. is all about. Big bellied, growthy, yet extended with the genetic profile to back her up. Her mother is a donor dam for us that never misses. However, we think this mating to Discovery may be her best yet. A "Ten X" x "263 C" mating is, in our minds, pretty special. We are retaining a flush sister and two flush brothers to headline our bull sale in April.

BAF Henrietta Pride B117 is an own daughter of one of the most widely used bulls in the Angus breed, Quaker Hill Rampage 0A36, and the maternal great-grandam of this heifer is the powerful Sitz Henrietta Pride 643T cow. This heifer's progressive CED, WW, YW, SC and \$B numbers combined with her impressive top 3% of the breed for \$W make her one to build a program around.

This powerful January show heifer combines the genetics of two of our champion herdsires. Sired by VIP, the champion bull of both the MO State Fair and the Ozark Empire Fair along with being named the Reserve Junior Yearling Champion Bull of the American Royal. Her dam is a two-year-old by Tuned In which is also a champion of the MO State Fair, Ozark Empire Fair, MO Angus Preview Show, Tulsa State Fair and Oklahoma State Fair. Added growth and power in a sound, functional package should make this heifer extremely competitive this summer.

A very complete and stylish female that will be competitive at all levels in the show ring. Sired by the popular Champion 74-51 Sudden Look 1023 this female is out of Paige's 2015 MO State Fair Reserve Grand Champion FFA Heifer. She is very thick, deep bodied and powerful with a very nice hind leg set and stout hip. At the end of her show career, this female will be a donor female with lots of cow power and productivity just like her dam.

Presented by Buschmeyer Angus Farm, Owensville, MO.

This heifer that stems from the Primrose cow family exemplifies a phenotype made for raising long bodied, slick haired MO herd bulls. She is an own daughter of the widely used WR Journey-1X74 and a maternal granddaughter of one of the breed's godfathers of docility, SydGen CC&7. Her balanced set of production numbers and a \$B in the top 10% make her a great addition to any cow herd.

Presented by Clearwater Farm, Springfield, MO.

Here's a fancy daughter of Clearwater Farm's featured donor, Clearwater Eriskay J 1425. Sired by EXAR Classen, Eriskay J 6375 has all the right pieces to fit many environments. She's deep bodied, open-ribbed, sound and easy on the eye. Her dam has generated more than \$200,000 in progeny sales and continues to be productive at 12 years of age. Longevity is built into this one! Show potential in the making! Bred to PVF Insight 0129 and due to calve 9/4/2018.

BDM Prizemere Style 643 - Lot 47

Presented by Daves Angus Farms, Buffalo, MO. This special bred heifer entry from Daves Farms comes right out of their replacement heifer pen. Phenotypically, a heifer you'll find to be very correct and comes with some extra stoutness. Not to mention a pedigree that is stacked with herd sires that have left a major impact across the county, starting with Connealy Consensus 7229 and on the bottom side of her pedigree Connealy Western Cut and H A S F Bando 1961, one of the dominant sires that helped catapult the Musgrave Angus program from Illinois. Bred to SydGen Exceed 3223 on 12/5/17; pasture exposed to DAV CC&7 014 from 12/20/17-2/16/18.

Presented by Daves Angus Farms, Buffalo, MO. The herd bull power behind this front pasture bred heifer is remarkable. To this point, the combined number of yearling weight data points turned in on the four great-grand sires totals over 16,000. This combined with the Mead Farms Miss Pride cow family and a healthy set of growth and \$B numbers make her a natural fit for any program. Bred to SydGen Exceed 3223 on 12/11/17; pasture exposed to DAV CC&7 014 from 12/20/17-2/16/18.

Presented by Clearwater Farm, Springfield, MO. Shoot for the moon with this breeding piece! Sired by MAR Innovation, Eriskay J 6260 is the Clearwater Farm pick for phenotype with a killer look! She packs tremendous internal dimension and is square-hipped in a free-moving, super-sound package. Her dam is a full sister to the Eriskay J 1425-featured donor that has been represented at the MO Futurity for more than a decade. Carrying the service of "Challenger," a new addition to the ABS sire line-up, a full brother to Baldrige Colonel. Due to calve 9/17/2018.

Presented by Darin & Christy Schnarre Farms, Centralia, MO. This classy heifer, out of "Style," was shown this past year and bred back to "Sub Zero." She is a heifer with added frame that doesn't sacrifice rib shape. She is a proud made female that floats around the ring and we believe has the breeding potential to be a foundation cow for anyone. Bred to Eathington Sub-Zero and due to calve 9/14/2018.

Presented by Hillard Cattle Company, Holliday, MO.
 A complete September daughter out of Connealy Final Product x Silveiras Style 9303 first calf heifer that offers the complete package. She descends back to the Denver Champion WCC Frontier Gal 39. She is deep bodied, with tons of rib and correctness on her feet and legs, offering a very impressive profile. She is the real deal for a show heifer/donor prospect with plenty of eye appeal. Seller reserves the right for two flushes at their expense and buyer's convenience. Bred to SAC Conversation and due to calve 9/12/2018.

Presented by Paige Birk, Gordonville, MO.
 Donor cow power at its very best! Selling this female might be the hardest decision Birk Beef Cattle has had to make. This super donor female is a daughter of the very popular Birks Forever Lady 14, who sold 1/2 interest through the 2016 MO Angus Futurity for \$15,000 to York Farms in Illinois. This female was the calf alongside her dam that had a very successful show career, being undefeated in eight Grand Champion Cow/Calf pair championships. Tracing back to the legendary B&M Forever Lady 294, she could follow in her footsteps. Will have a calf at side (Lot 51A) sale day, due 2/3/18 to 5T Power Chip 4790.

Presented by Meyer Cattle Company, Curryville, MO.
 This exciting bred heifer comes right out of the Meyer Cattle Co. replacement female pen. She's an own daughter of our herdsire, EXAR Bright Future 2087B. The sire of this female was the MO Angus Get of Sire Bull numerous times here at the Breeders' Futurity. We have found the paternal sisters to this entry to be great balanced, good milking and the kind of females you can build a herd upon. Bred to EXAR Investment 6745B, due 4/30/2018.

 An excellent young donor prospect by the cow maker Vin Mar O'Reilly Factor. These O'Reilly Factor daughters are becoming very popular and productive. The dam of this great female is a descendant to the famous \$750,000 producing B&M Forever Lady 294. This female is a 7/8 sister to the past several very popular cow/calf pairs we have sold through this Futurity. She is a very attractive and feminine female that is super complete. Will have a calf at side (Lot 52A) sale day, due 1/30/18 to PVF Insight 0129.

Presented by Sophia Sweeny, Pierce City, MO.
 Sired by the number one bull for registrations in 2017, RB Tour of Duty 177, this young female started out as a competitive show heifer for a first-time showman. Her ability to transition from a show heifer into a great young cow is evident in the work she is doing raising this beautiful, stout September third heifer calf (Lot 53A) by Blacktop Cash Crop (18944092). Here is an opportunity to invest in a package of two young females that stem from a program built on ultra-functional females and support a young junior member early in her Angus career.

Presented by Brinkley Angus Ranch, Milan, MO.
 This offering from Brinkley Angus Ranch has the potential to move anyone's program forward in terms of carcass merit. A maternal sister to the dam was the top-selling female at Deer Valley's 2016 sale, selling for \$150,000 for 1/2 interest to High Roller Angus of Texas. Additional maternal sisters sold the year before for \$90,000 for 1/2 interest and \$30,000. The calving ease and marbling leading grandam, GAR Progress 830 posts progeny ratios that include IMF 44@113 and REA 44@102. She is a \$425,000 valued cow that is the #1 MB proven dam in the breed at her accuracy. The sire of this pregnancy, SydGen Enhance, is a fescue produced bull that is one of the most popular young sires in the Angus breed. He brought \$30,000 for 1/2 interest and was co-top selling bull in Sydenstricker's 2015 production sale. Additionally, he boasts individual ratios of WWR 116, YWR 114, IMF 132 and RE 108 and is one of the breed leaders in the ever so sought after \$B Value. Due to calve 9/22/2018.

Presented by Sydenstricker Genetics, Mexico, MO.
 Annually offering their best fall two-year-old heifer pair in this event, this intriguing daughter of Connealy Cool 39L is out of their only full sister to the breed legend, SydGen CC&7. More and more breeders are recognizing the power of CC&7 in Angus pedigrees, and this female also offers a fairly unique pedigree that offers virtually unlimited mating opportunities. 5427 ranks in the top 1% for SC EPD, the top 3% for WW and YW EPDs, the top 4% for HP EPD and the top 5% for \$B. Her dam posts three natural progeny with average BWR-102, WWR-109, YWR-105, IMF-96 and REA-101, and should attain Pathfinder status on the next Pathfinder Report. 5427 is bred to Bakers Northside 6007 and due to calve 10/27/18.

With the spirit of juniors in mind, we are excited to offer this heifer pregnancy. It is a mating combination of the hottest young show sire in the breed, Colburn Primo and a full sister to the National Western Stock Show Reserve Grand Champion Female owned by the Ward Brothers. The guesswork for making your next great show heifer has been done and is offered to you in this package. Confirmed heifer pregnancy due 9/9/2018.

W B PVF Lucy 1052 - Full sister to the grandam of Lot 56.

Selling five frozen IVF embryos with the guarantee of two successful transfers if implanted by an AETA-certified technician.
A special feature of this year's event will be an embryo package of 5 frozen IVF embryos from the \$60,000-valuation EXAR Henrietta Pride 9343, an own daughter of Sitz Henrietta Pride 643T sired by PA Power Tool 9108. 9343 was the top-selling cow at \$30,000 for one-half interest in our November production sale to Greiner Angus, Kalona, IA. 9343's first six calves to sell, also in our 2017 production sale, grossed \$50,000 including the third top-selling bull calf, SydGen Black Ice 7029. This cow family has produced many of the breed's top-selling females and bulls in recent years, and 9343's mating to the widely-used SydGen Enhance offers a breed-leading package of both EPD and phenotypic excellence.

SydGen Enhance - Sire of Lots 55 and 57.

EXAR Henrietta Pride 9343 - Dam of Lot 57.

Colburn Primo 5153 - Sire of Lots 56 and 58.

Selling three IVF embryos with the guarantee of one successful transfer if implanted by an AETA-certified technician.

The East has moved West with a chance to purchase embryos that are maternal siblings to the Grand Champion Owned Heifer of the 2015 PA Junior Farm Show and Junior Heifer Champion of the PA Open Farm Show. The dam, Elisha 1125 is a direct daughter of the featured Cherry Knoll foundation donor Elisha of Conanga 227. Maternal sisters to the donor dam of this lot include Cherry Knoll Elisha 1146, the Reserve Grand Champion Female 2012 NILE and Grand Champion Cow-Calf 2013 NAILE in addition to Cherry Knoll Elisha 1240, the Intermediate Champion Female 2013 NAILE. The proven pedigree of Elisha 1125 combined with the ever-popular Colburn Primo should result in a special mating.

Cherry Knoll Elisha 1125 - Maternal sib of Lot 58.

61st ANNUAL MISSOURI ANGUS BREEDERS' FUTURITY

Watch and bid online for free! No buyer premium or viewing fee.

1. Visit www.dvauction.com to register.
2. Complete "register" & "applying to bid".
3. DV Auction staff will contact you to let you know that you have been approved to bid.

Please note: You must have high speed internet access (DSL, T-1, or Broadband) to be able to bid during the sale. Any questions, please contact Dan Broz at 402-649-3172 or 402-474-5557. We recommend that you apply to bid 24 hours prior to the sale-every attempt will be made to complete your application in a timely manner.

Selling four embryos with the guarantee of two successful transfers if implanted by an AETA-certified technician.
Galaxy Blackbird 4551 embodies all the positive traits of the Angus breed, from shape and kind, foot and udder structure and EPD profile. She is a maternal sister to the high-selling lots in both the 2017 Galaxy Beef LLC Show-Me the Beef! Spring bull sale and the 2017 Galaxy Beef LLC Black Friday Fall production sale. The grandam is a maternal sister to Sandpoint Blackbird 8809, the prolific bull producer at Vintage Angus Ranch. Diablo Deluxe 1104 was the winner of the 2017 Cal Poly Bull Test, has all the correct EPDs, great structure, fluidity in his movement and is docile to boot.

Diablo Deluxe 1104 - Sire of Lot 59.

Galaxy Blackbird 4551 - Dam of Lot 59.

Selling three IVF embryos with the guarantee of one successful transfer if implanted by an AETA-certified technician.
The sire of this embryo package, Quaker Hill Rumpage 0A36 is an absolute breed changer in his EPD profile, siring featured sale lots across the country. The dam of these embryos is an own daughter of Connealy Confidence 0100 that posts a CED and RE in the top 1% and BW in the top 2%. Additionally the dam, Deer Valley Rita 3216, had an REA ratio of 1.10 and actual measurement of 13.2. This mating was made with the breeding philosophy that has wholly invested in all phases of beef cattle production.

Quaker Hill Rumpage 0A36 - Sire of Lot 60.

GAR Objective 1067 - Maternal great-grandam of Lot 60.

Presented by Green Gate Farm and Frey Family Angus, Wentzville, MO. This young herd sire has a Show-Me-Select qualifying CED and is sired by the Reserve Grand Champion bull at the 2016 Fort Worth Stock Show. The dam of GGF/Freys Power Ranger E19 has a tremendous track record in the Cow/Calf Division at the Atlantic National ROV Show. She herself was the Champion Cow/Calf Pair in 2015 and she produced the Champion Cow/Calf Pair in 2016 as well as the Reserve Champion Cow/Calf Pair in 2017. This young herdsire has a Show-Me-Select qualifying CED and maintains a \$B number in the top 50%. He is bred to make a set of calves with extra pop and style. Selling 2/3 semen interest with full possession.

Presented by Meyer Cattle Company, Curryville, MO. Meyer Insight 1732 was the Reserve Calf Champion at the 2017 MO State Fair. He is an own son of a featured donor dam at the Meyer Angus program, Esco Sasqua 59T. This young herdsire is also a maternal brother to the 2015 MO Angus Breeders' Futurity Champion Female who now resides in Canada. Meyer Insight 1732 is sure to be a herd changer with his combination of softness of design and maternally stacked pedigree.

Presented by R S & T, LLC, Savannah, MO. We are excited to bring back to the MO Angus Futurity another son of the great donor cow Champion Hill Georgina 6337. A year ago, a flush brother to this bull sold here at the Futurity to Bylar Angus in Texas. That bull went on to win Champion at the West Texas State Fair. We believe RS&T Georgina Man E713 can follow in those same great footsteps. This own son of Insight is attractive fronted, heavy boned, and big ribbed.

Presented by Tebbenkamp Show Cattle, Corder, MO. A really nice, eye appealing herdsire prospect with plenty of phenotype out of the popular "McKinley" bull of Express and Nowatzke. The "Machinist" dam of this bull is a "can't miss" and has had multiple offspring sell in the Futurity. A bull with plenty of body that is projected to sire great females.

Champion Hill Georgina 6337 - Dam of Lot 66.

Here is a bull that is bred to sire the next set of show heifers. Silveiras Style 9303, Dameron First Class and Leachman Saughatchee 3000C are all bulls that have left a major impact on the Angus show cattle world and this bull combines them all. The guesswork has been bred out of this young herd sire's pedigree.

Presented by Borgstadt Angus Ranch, Concordia, MO.

Selling 1/2 semen interest and full possession.

BARA McKinley 7101 has a staggering list of showing wins already under his belt as a calf. At the side of his dam, they were named Grand Champion Cow/Calf Pair at the MO Junior Angus Preview Show, Ozark Empire Fair Junior Show, Ozark Empire Fair Open Show, MO State Fair FFA Show and MO State Fair Open Show. BARA McKinley 7101 was also named the Reserve Champion Bull at the MO State Fair FFA Show and won his respective division in the open show. In his last outing, he was a class winner at the 2017 American Royal. We think you'll appreciate the combination of this bull's extra thickness and Show-Me-Select qualified CED.

A rugged designed bull who will be ready to cover cows this spring. Packed with dimension, plenty of power, and flexible correctly designed joints, this is a bull who looks the part and is bred for growth. His excellent dam has a WW ratio on 4 calves of 106 and a yearling ratio of 112. The paternal grandsire is Connealy Consensus 7229, a bull that has led the breed in registrations and, undoubtedly, left a big impact on the Angus breed. This young herdsire also posts a WEPD in the top 15% and YEPD and \$F in the top 20% of the breed.

Sure to be a favorite on sale day! This is a very stout, long bodied and deep ribbed son of the popular champion 74-51 Sudden Look 1023. His dam is from the very productive Ruby cow family originating from the past Fox Run herd. Paige showed two maternal sisters to this herdsire prospect very successfully as Sr. Yearlings the past couple years, highlighted by one of them being named Reserve Grand Champion Female at the 2017 Mo Junior Angus Preview Show. This bull will add pounds and give his calves that extra look come sale time.

Sired by the Select Sires superior-settler, Connealy Comrade, Commander is a favorite for phenotype. He's super attractive, neat-necked and tight-sheathed with an abundance of muscle. Here's calving ease for your cowherd in a power package! His dam, Clearwater Eriskay J 2973, was the only two-year-old to enter our ET program after her natural calf and full brother to Commander outperformed his contemporaries. Starting at a modest 72-pound birthweight, Commander boasts actual weaning and yearling weights of 800 pounds and 1,375 pounds, respectively.

Presented by Butch's Angus, Jackson, MO.

This son of PVF Insight 0129 is bred to be structurally correct. In addition to that, his maternal grandsire, Vin-Mar O'Reilly Factor, and his maternal great-grandsire, Summitcrest Complete 1P55, have both proven to make females that generate in herds across the country. Dam is a full brother to a herdsire at Butch's Angus. Grandam is a longtime donor that has produced many top-selling herdsires and put many replacements in the herd. A very sharp fronted, powerfully constructed herdsire entry from one of the longstanding pillars of the Angus community. Also note this bull has a RE EPD that ranks in the top 1% and \$F in the top 15%. Selling 2/3 interest and full possession.

 This own son of the AAR Ten X 7008 SA has a BW EPD that makes him extremely suitable for use on heifers. Additionally, he has an impressive Marb EPD in the top 10%, \$F in the top 2% and \$QG in the top 5%. This bull is geared to increase carcass merit in a set of calves and, phenotypically, he is the kind that can leave a whole crop of front pasture daughters.

NOTES

AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

Accuracy (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Residual Average Daily Gain (RADG), feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for post-weaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

Dry Matter Intake (DMI), expressed in pounds per day, is a predictor of difference in transmitting ability for feed intake during the post-weaning phase, compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (DOC), is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves.

MATERNAL

Heifer Pregnancy (HP), is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction, and the EPD is reported in percentage units.

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Mature Weight EPD (MW), expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

Mature Height EPD (MH), expressed in inches, is a predictor of

the difference in mature height of a sire's daughters compared to daughters of other sires.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses).

Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Quality Grade (\$QG) represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD, which is influenced by carcass marbling scores and ultrasound percent intramuscular fat (% IMF) measurements, contribute to \$QG.

Yield Grade (\$YG) \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield.

\$G combines both \$QG and \$YG, and may be the best carcass decision tool for focusing on quality and red meat yield simultaneously.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

CONSIGNORS

Behlmann Angus
