RATHBUN ANGUS RANCH

26TH ANNUAL BULL AND FEMALE SALE

NOVEMBER 1ST, 2018 AT NOON

MOSES LAKE, WA

RATHBUN ANGUS RANCH

Dear Friends,

Welcome to our 26th Annual Bull and Female Sale. This is a special group of bulls this year. When taking pictures and setting up this sale book I was looking as I always do for that one sire group that really peeks its head. I have been pleasantly surprised that there are many sire groups that I really like. From EPDs, top lines, thickness, disposition, length, it is all there, just pick one!

As always we usually have a favorite or two to put on the cover or to showcase in an ad, but this year I keep wanting to change the face of our ad. I think I might lose my help if I did, but sure makes having social media a helpful tool. Please friend us on Facebook and or Instagram as I post the latest info there. Links to our video of the cattle will also be there when they are ready, as well as on our website. Like and Share with your friends and help us continue to be your source for Angus cattle in your herd!

Many of you are familiar with angus.org. The last few years every Friday updated info on the bulls is posted. I have been including Reg # on the ads and social media. This is so you can check each bull you are interested in at the touch of your fingers. Load the American Angus Association App to your phone, then search by registration number and there will be the most current numbers on any animal in the Angus breed, most importantly our bulls.

In the past you have seen that we DNA test all our bulls with the HD50K. We are still DNA testing but have changed to GENESEEK Angus GS. This company is focused more on Angus genetics. If you have any questions regarding this, please ask.

Once again we are offering a super group of fancy commercial heifers. They are AI bred to Whitlock. Whitlock is also the sire to Lots 1-17 in the sale book. If you want to see what kind of cattle he puts out, you can see an example on pages 4 and 5.

We are looking forward to seeing you all November 1st at NOON at the ranch. Thank you for being our supporters and using Rathbun Genetics in your herd. If you have never used our genetics we invite you to do your homework and jump in. Feel free to call Greg (509) 539-0539 or Mark (509) 750-8511 with any questions. Come early for donuts and coffee!

The Rathbuns

SALE DAY PHONE (509) 539-0539

**Greg and Jennifer Rathbun • 11990 Rd. H NE, Moses Lake, Washington 98837
Greg (509) 539-0539**

GENERAL INFORMATION

Accommodations:

- AmeriHost Inn & Suites, Moses Lake, 1157 N. Stratford Rd. (509) 764-7500
- Holiday Inn Express, Moses Lake, 1745 Kittleson Rd. (509) 766-2000
- Inn at Moses Lake, (509) 766-7000

Sale Location:

The sale will be held on the ranch located at 11990 Rd. H NE, Moses Lake, Washington. For directions to the sale site, see map on page 3. Watch for sale signs.

Airlines:

Spokane, WA (90 miles) is served by most major airlines. We will be happy to meet planes at any location. Please contact the ranch for arrangements.

Health:

All in-state bulls will be ready for immediate shipment. Females are all official calfhood vaccinated for Brucellosis. All out-of-state bulls may take 7-10 days due to health papers and requirements for each state. All bulls sell as guaranteed breeders. All animals are vaccinated regularly; contact ranch for vaccination schedule.

Genetic Defects:

All animals to be sold are guaranteed to be free of all genetic defects that have been identified by date of sale.

Semen Test:

Every bull selling has been semen tested and is **GUARANTEED TO BREED**.

Trich Test:

All bulls are virgin bulls and guaranteed to be free of Trich.

Females:

All females sold as bred are guaranteed bred unless otherwise stated on sale day.

Identification of Sale Cattle:

Black tags correspond with the sale listing lot numbers. Yellow tags correspond with tattoos.

Livestock Mortality Insurance:

Insurance on your purchases may be obtained through Jim Bessler of James F. Bessler, Inc. Cell phone: (815) 762-2641.

Terms and Conditions:

The cattle will sell under the suggested Terms and Conditions of the American Angus Association. (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Lunch:

A complimentary Certified Angus Beef® barbecue will be served beginning at 11 a.m. Don't forget the "Famous Strawberry Shortcake." Hot and cold drinks will be available at the sale site. Coffee and donuts early.

ANGUS MEDIA

Visit the *Angus Journal* Website, www.angus.org, and view this sale book online.

References: American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder® EPDs current as of September 18, 2018. Updated EPDs can be viewed at www.angus.org.

BULL BRED TO RATHBUN CALVING-EASE BULLS

DUE MARCH 1- APRIL 1

Explanation of EPDs

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus.

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

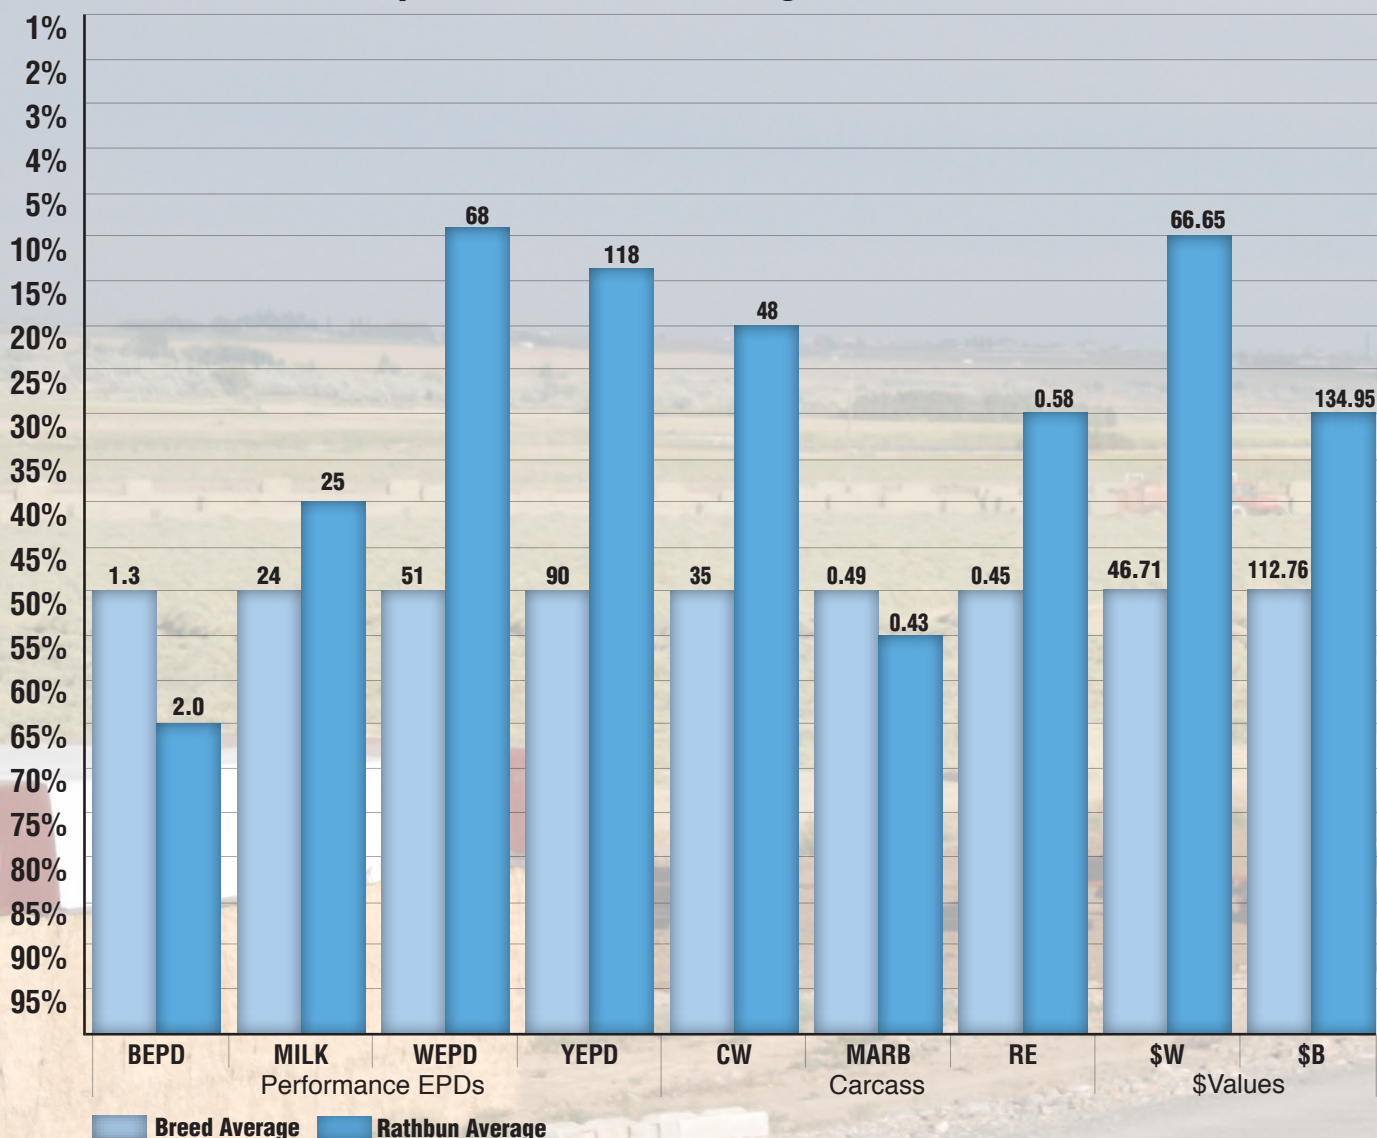

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Average EPDs and \$Values of Rathbun Sale Bulls Compared to the Breed Average of Current Sires
