

# SCHREIBER ANGUS

Annual Spring Production Sale

Tuesday • **March 12, 2019** • 1 PM

*At the Ranch near Beaver, Kansas*

## SELLING

- **26 Two-Year-Olds**
- **32 Yearlings,**
- **13 18-Month-Olds**  
**Replacement Heifers,**  
**Commercial Black Angus**  
**and F1 Heifer Pairs.**

Fellow Cattlemen,

The Schreiber Angus family would like to invite you to our 7th annual production sale. We look forward to seeing our customers and friends, along with meeting new customers and getting to know you and more about your operation. We hope you can be with us at the farm on sale day or view the sale on [DVAuction.com](http://DVAuction.com). Bulls will sell first followed by a high quality offering of females, including first calf heifer pairs and replacement heifers.

We are a family operation that wants our customers to enjoy the success that designed genetics offer them, and yes, to achieve a profit as well as using this profit to make their families, country and world a better place. We believe that good feet, sound udders, and excellent dispositions are just as important as superior EPDs. The bottom end of the bull crop become steers here and no bulls are sold prior to auction day so they have not been picked over. Bulls are freeze branded for easy identification.

What a great place to choose some superior genetics to upgrade any herd for the foundation of a new Angus breeding program. We contribute our success to all our family along with our entire crew who spends countless hours making this sale successful. Words cannot adequately describe our appreciation for the hard work of our small but mighty staff. Each member accomplishes the work of multiple people. Whether it's planting, harvesting, working cattle, breeding, processing, calving or repairing equipment, there is no job this crew can't do. Thank you for taking the time to look at our cattle, and we are sure that when you take them home you will be a proud owner of Schreiber Angus Cattle.

Don't hesitate to call with any questions you might have about the genetics we're offering. This is both a social and genetic event that you don't want to miss in 2019. Hope to see you March 12th!

The Schreibers  
Rick, Jane, Aaron, Paul, Melanie, Joel, Callie & Abbie

# GENERAL SALE INFORMATION

## **DVAuction** Broadcasting Real-Time Auctions

Visit [www.DVAuction.com](http://www.DVAuction.com)

and Register Today!

For General Questions, Please Contact Our Office:  
(402) 316-5460 or [support@dvauktion.com](mailto:support@dvauktion.com)

### **AUCTIONEER**

Dustin N. Layton.....(405-464-2455)

Representatives:

Jeff Mafi, American Angus Association.. (816-344-4266)

Chisolm Kinder, Oklahoma Cowman .....(405-747-4683)

Jason Schneider, Auction Service.....(785-650-2433)

Animals will be on site and available for viewing . . . Auction will be broadcast via DVAuction this year for those unable to attend.

### **ACCOMMODATIONS**

Hoisington and Russell have nice hotels not far from the ranch.

Rodeway Inn & Suites, Hoisington, KS (620) 292-6022

Fossil Creek Hotel, Russell, KS (785) 483-4200

### **HEALTH PROGRAM**

The Bulls have been semen checked, wormed with Safe-guard Drench, poured with Clean-up, and have been given a shot of Bovishield Gold. They have been PI (Persistant Infec-tion) & trich tested and found negative. The Bulls have been tested and are guaranteed to be free of all genetic defects known at the present time through the Angus Association. Heifers have been calfhooed vaccinated. Vet work performed by Russell Veterinary Service; Dr. Dane Anspaugh.

### **FIRST BREEDING SEASON GUARANTEE**

Schreiber Angus will guarantee breeding soundness for the first 90 days, unless injury or death is caused by the buyer's negligence or an Act of God, such as lightning.

If a replacement bull is available, he will be provided or if the buyer prefers, credit will be given toward a bull at the follow-ing year's sale less salvage value of the injured bull.

Notification must be given to Schreiber Angus prior to selling the injured bull.

### **ANGUS MEDIA**

Visit the *Angus Journal* Web site, [www.angus.org](http://www.angus.org) and view this sale book online. *References: American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®.* EPDs current as of Feb. 2, 2019. Updated EPDs can be viewed online at [www.angus.org](http://www.angus.org).

### **DELIVERY**

We offer free delivery within 250 miles of Schreiber Angus on purchases of \$5,000 or more. If you haul your own the week of the sale we will deduct \$50 per bull from your purchase price. Bulls can be taken care of here at our ranch free of charge up to April 10th. We will start delivering bulls around the 1st of April unless you need them sooner. Free Keep and Free Delivery do not apply to the females in the sale.

### **SIGHT-UNSEEN SATISFACTION GUARANTEE**

Buyers unable to attend the sale may contact any of the listed references for assistance in placing their bids. Bids may be taken on the phone during the sale. All bids are held in confidentiality and purchases are guaranteed to meet your expectations.

### **LIABILITY**

Schreiber Angus does not assume any liability in case of accident on sale day.

### **OWNERSHIP**

Livestock is the property of the buyer as soon as sold. Terms are cash or check.

Schreiber Angus will retain 1/3 semen interest in all bulls sold.

### **SUPPLEMENTAL INFORMATION**

A supplemental sheet will be available sale day with com-plete and up-to-date information. Announcements from the auction block take precedence over sale book information.

Gardens Timex is a bull with modest birth weight that will add volume, capacity, dimension and carcass merit to your calf crop. We have used him in our herd and his offspring have excellent vigor, performance and excel in the feedlots. He will produce long lasting, productive and profitable daughters to improve any herd. On the rail, he will deliver carcasses with quality and cutability that are sure to earn you grid premiums. Timex ranks in the top 3% on Marbling in the breed and is also a superior settler. Semen is available through Schreiber Angus.

SCHREIBER ANGUS  
THANK YOU!

# American Angus Association® Selection Tools

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

**Accuracy (ACC)**, is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

## GROWTH

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Residual Average Daily Gain (RADG)**, feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Yearling Height EPD (YH)**, is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to the that of other sires.

**Scrotal Circumference EPD (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Docility (DOC)**, is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves.

## MATERNAL

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction, and the EPD is reported in percentage units.

**Calving Ease Maternal (CEM)**, is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Mature Weight EPD (MW)**, expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

**Mature Height EPD (MH)**, expressed in inches, is a predictor of the difference in mature height of a sire's daughters compared to daughters of other sires.

**Cow Energy Value (\$EN)**, expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

## CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

**Carcass Weight EPD (CW)**, expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

## \$VALUE INDEXES

**\$Value indexes**, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

**Weaned Calf Value (\$W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

**Feedlot Value (\$F)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

**Grid Value (\$G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Quality Grade (\$QG)** represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD, which is influenced by carcass marbling scores and ultrasound percent intramuscular fat (% IMF) measurements, contribute to \$QG.

**Yield Grade (\$YG)** \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield.

**\$G** combines both \$QG and \$YG, and may be the best carcass decision tool for focusing on quality and red meat yield simultaneously.

**Beef Value (\$B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.
