Dear Angus Producers,

The Wiederstein family has farmed for eight generations in the agricultural rich Audubon County area. Ed and Nicki have raised registered Angus for over 20 years: and with growing grandchildren, it's now time to enjoy their blessing and retire from the day to day farming activities. In 2015 their son, Ryan, joined the Angus business and aggressively sought after some of the most popular females in the business in a very quick manner. Time commitments in Des Moines make day-to-day activity in the registered business hard to manage, but they will continue to focus on commercial Angus. Over the years they have captured some of the big-named bulls in the breed, to start with B/R New Day 454 who to this day is still making great maternal impacts on the breed. Sydenstricker bulls lead off with Sydgen Liberty GA 8627 who you will find in Angus pedigrees in abundance. Sydgen Justice, Sydgen Liberty, Sydgen For All, Sydgen Bullion, and Sydgen Big League all make up what has been an all star herd bull battery who paid dividends in semen and offspring. You will find 44 Big Commerce 6076's service as he was added in 2017 and brings a stellar pedigree and EPD profile to the table.

I have worked with the Wiederstein family closely over the years and have admired their eye and independence for cattle. This set of very young cattle are exciting to me for what they hold in the future along with what their pedigrees have proven in the past. You will quickly find mates and half siblings to some of the highest valued cattle in the breed sell in this sale. None of that matters if they don't look the part and perform. So we encourage you to view the videos and check out the cattle for yourself, as I think this will be one of the great buying opportunities of the year.

Sincerely,

Wes Tiemann

The Mary Blackbird cow family has been poised to become an outcross high value family for the Angus breed. The proof comes through the Tehama herd in CA selling high demand commercial bulls from this cow line. Sydenstricker Genetics purchased the pick of the Tehama 2 year old heifers and came home with what is now the Lot 2 donor dam in this sale and was purchased in the 2016 Sydgen Sale as a highlight Lot for \$17,000. Since then the Mary Blackbirds have generated high results because of their superior carcass and maternal ability. High Roller in Texas since sold BCA Mary Blackbird 2742 for a record \$210,000 for half interest in 2017 who comes from this same powerful family.

A pedigree that needs no intro as this female's dam is the full sister to Quaker Hill Rampage. This young female offers a bold EPD profile with a pedigree as time tested and proven as anything in the breed, yet still relevant as the day she was born. The brood of maternal sisters to the dam OA35 have generated eggs for the top breeders in the country and you will find them on the bottom and top side of thousands of pedigrees. Exposed to Silfa BC 3710B-868 4-27-20 to 5-28-20.
