**INFLUENCE SALE**

**Tuesday, April 13, 2010**

**6 p.m.**

**New Cambria Auction Market**

**New Cambria, Missouri**

# FIFTH ANNUAL SPRING SYDGEN INFLUENCE SALE

April 13, 2010 ■ 6 p.m. ■ New Cambria Auction Market ■ North of Hwy. 36 ■ New Cambria, Missouri ■ (660) 226-5222

Bar is located on the north side of Hwy. 36, between Macon and Brookfield.

## SELLING:

71 Registered Angus Bulls ■ 12 Registered Angus Heifers  
3 Commercial Angus Heifers

## SALE DAY PHONES:

(573) 473-9202 ■ (660) 226-5222 ■ (573) 253-8588

## AUCTIONEER:

Chas Wheeler . . . . . (573) 473-2508

## RINGMEN:

Tim Lackey, *Missouri Beef Cattleman* . . . . . (573) 588-2334  
Wes Tiemann, *Angus Journal* . . . . . (816) 387-3807  
Josh Worthington, *Missouri Angus Trails* . . . . . (417) 844-2601

## SPECIAL GUESTS:

Rick Washam, President, Missouri Angus Association  
Brent Murphy, President Elect, Missouri Angus Association  
Alan Mead, Secretary, Missouri Angus Association  
Norman Garton, Director, American Angus Association

## ACCOMMODATIONS, MACON, MO:

Comfort Inn . . . . . (660) 395-8000  
Super 8 . . . . . (660) 385-5788  
Best Western . . . . . (660) 385-2125  
Travelers Motel . . . . . (660) 385-2102

## Arthrogyposis Multiplex (AM) and Neuropathic Hydrocephalus (NH) Testing

All bulls selling will be tested AM and/or NH Free, or have no direct pedigree linkage to carrier animals. Most have already been tested by sale book time. The others will be tested AMF and or NHF by sale day, or they will not sell.

**HEALTH:** Missouri and Illinois are both Class Free TB and Class Free Brucellosis States. All cattle will sell with interstate health papers available on sale day. Many of the consignors maintain Certified Brucellosis Free Herds and several are on a John's testing program. All bulls have passed a breeding soundness evaluation within 60 days of sale day, and those papers will accompany the bulls. All consignors maintain an acceptable herd health and vaccination program, and all bulls have been vaccinated for IBR, BVD and PI3, BRSV, Pasteurella and 7-way Blackleg, and de-wormed and de-loused within 60 days of sale.

**TRUCKING:** We would like for buyers to move their bulls as soon as possible, but New Cambria Livestock Market will care for any bulls purchased for a reasonable time until trucking arrangements can be made. The sellers will also assist the buyers in caring for the bulls if necessary, and in finding reliable truckers if needed.

**INSURANCE:** Livestock insurance will be available sale day.

## TERMS AND CONDITIONS:

Terms of the sale are cash.

Cattle will sell under the Terms and Conditions as recommended by the American Angus Association. All persons who attend the sale do so at their own risk, and neither Sydenstricker Genetics nor New Cambria Livestock Market assumes any liability, legal or otherwise, for any accidents which may occur.

## INTERESTS RETAINED IN BULLS:

You will notice we are selling half revenue-sharing interest with full possession in some bulls. This means the bull is totally in your control as far as how you want to handle him, and you get 100% of the salvage value of the bull. Simply, the Seller has the right to half the semen sales revenue from the bull if sometime in the future, semen sales becomes a possibility. If you sell the bull to another breeder, the original Seller retains that half interest.

If you purchase a half interest bull and wish to collect some semen on the bull as an "insurance policy" for your own use, that semen is 100% yours, unless the Seller is in contact with you and also wishes to collect the bull, either for within herd use, or to build a jointly-owned bank of semen for sale.

**Service Sires** to use on heifers for the Show-Me Select Heifer Program must have a Calving Ease Direct (CED) EPD of +8 or higher.

**Service Sires** to use on heifers for the SydGen Influence Sale to be held November 20, 2010 must be +3.0 or lower BW EPD and +6 or higher for CED EPD, and must carry the SydGen prefix in their name.

**Semen** is available on most SydGen Sires either direct from us, or through the ORigen network.

## COVER:

These are the January and February SydGen bulls the SydGen consignment was selected from.

 Visit the *Angus Journal* Web site, [www.angusjournal.com](http://www.angusjournal.com) and search this sale book online. *References:* American Angus Association®, AHIR®, AngusSource®, CAB®, Pathfinder®. EPDs current as of March 1, 2010. Updated EPDs can be viewed online at [www.angus.org](http://www.angus.org).

Darla Eggers

Dear Cattlemen,

Welcome to our Fifth Annual SydGen Influence Spring Sale. As many of you know, we have always sold our fall yearling bulls and January bull calves in our Annual Production Sale in November. We have then sold our February and March yearlings off the farm by private treaty in the spring as they turned a year of age. For many years, we have had the idea of a spring sale whereby we could merchandise many of these bulls at auction and include several good breeders who have used our genetics to create a larger group of SydGen influenced bulls and females to offer to the public.

The spring bulls SydGen is selling today were weaned from two contemporary groups. Some are ET calves raised on commercial Angus cows in the Vannoy herd at Shelbina, MO. They were weaned on August 10, and transitioned on to Purina Impact Grower in a 10 acre paddock, and weighed for yearling weights on December 23. The larger group was natural calves born between Feb. 1 and Feb. 15, 2009. They were weaned on October 5, transitioned onto Purina Impact Grower in the same paddock, and weighed and scanned on January 25, 2010. All the bulls were then transitioned on to grass hay, and hand fed silage, oats and corn to sale day, along with forced exercise to help condition them for pasture use.

This sale is another step toward substantially increasing the number of SydGen influenced sires in the Midwest's good commercial herds. Over the years, we have brought many outside bloodlines into our herd, and tested them with the extremes of Missouri's climate and fescue challenges, and we have seen differences in the adaptability. We have tried to mold the bloodlines that work into the herd sires we produce, and are proud of how well they've done for others. All these contributing breeders selling today are performance-minded, with a long-term commitment to breeding better Angus cattle, and we think you will be pleased with the offering.

Ben Eggers

Eddie L. Sydenstricker

**CHAMNESS ANGUS LLC**

Matt Chamness  
Bob Chamness  
PO Box 472 • Anna, IL 62906  
(618) 833-8706 • (618) 833-4774  
mchamness@ajinternet.net

Located in the rolling hills of deep southern Illinois, the Chamness' have been in the registered Angus business for 10 years and using SydGen genetics since 2004. They strive to improve their herd through genetic selection, herd health and nutrition.

**CIRCLE M FARMS**

Eddie Wayne & Beth Mongler  
1962 Audrain Road 373 • Mexico, MO 65265  
Home: (573) 581-0891  
Cell: (581) 473-6453

Circle M Farms has been raising registered Angus for 13 years, using predominantly Sydenstricker Genetics. They maintain Certified Brucellosis Free Herd #1945, and have been Johnes' testing for eight years.

**COON ANGUS RANCH**

Larry & Elizabeth  
Russell, Susan, Kathryn & Jacob  
1284 Shelby 169 • Bethel, MO 63434  
Home: (660) 284-6473 • Cell: (660) 341-2705  
rscoon@marktwain.net  
lecoon@marktwain.net

The Coon family has been raising purebred Angus cattle for 44 years and presently represents three generations. The operation consists of 150 cows with a focus on producing bulls for commercial customers with a select group of females available at the farm. Russell is also a certified ultrasound technician.

**GRAUPMAN ANGUS**

Kris Graupman  
4152 CR 230 • Palmyra, MO  
Home: (573) 769-2956  
Cell: (573) 248-4958  
kgraupman@centurytel.net

In the registered Angus business for 30 years, Graupman Angus sells 30-35 bulls per year. They have consigned several top-selling and A- graded bulls in the NEMO BCIA and the MO BCIA sales. Currently they have two herd sires serving in AI studs, and Kris is a past President of the Missouri Angus Association.

**HUDSON ANGUS FARM**

411 Eastland Dr. • Jefferson City, MO 65101  
(573) 635-7728  
roland.hudson@myfcsfinancial.com

Roland Hudson stresses curve-bending Angus genetics in his breeding program, and utilizes AI and embryo transfer in his operation.

**MCLAND ANGUS**

Ronald & Karen McClelland  
2334 E. 1300th St. • Mendon, IL 62351-2727  
Home: (217) 935-2417  
Cell: (217) 430-8008  
rkmcclel@adams.net

McLand Angus is a Historic Angus Herd founded with Ronald's 4-H heifer purchase in 1954. They have utilized performance testing and AI since 1977. Running a highly selected 15 cow herd, they have sold cattle into 5 states over the last few years, with several heifers winning purple ribbons in junior, local, and regional competition throughout the Midwest.

**NEIL ANGUS**

Gene & Dan Neil  
18284 Fulbright Rd. • Brookfield, MO 64628  
Gene: (660) 256-3366  
Dan: (660) 256-3227  
neilangus@mcmsys.com

Dan's children make the 4th generation at Neil Angus, and they have owned registered Angus cattle since 1949. Long a source of Angus bulls in North Missouri, and developed with commercial producers in mind.

**POWER ANGUS RANCH**

Randy & Ryan Power  
13475 E Route D • Centralia, MO 65240  
Home: (573) 682-1005  
rsp123@ktis.net

Power Angus Ranch was re-established in 1994 in Centralia, MO. Randy and Ryan have focused on putting together a small herd of cattle with cutting-edge genetics using AI as a means to continually improve the quality of the herd.

**SHAWNEE WINDS ANGUS**

Don Schaefer & Pam Walther  
8500 Wildlife Drive • Jefferson City, MO 65101  
(573) 619-6141  
shop@midwestblock.com

Shawnee Winds has been raising Angus cattle since 1999. They produce 15-25 bulls annually. Herd health is extremely important. They maintain a Certified Brucellosis Free Herd #1931, have Johnes' Certificate #MPC0055, and have tested for Anaplasmosis, BVD and BLV since 1999.

**SPICKNALL FARMS ANGUS**

Alan Spicknall  
Elva Ruth Spicknall  
20116 State Hwy. D • LaBelle, MO 63447  
(660) 216-1400  
spicknal@marktwain.net

The Spicknall family has raised cattle in northeast Missouri for over 70 years. They purchased their first registered Angus in 1996, with the goal of producing functional cattle with good disposition and eye appeal. Maintains Certified Brucellosis Free Herd #1926 and has Johnes' Certificate #MPC0073

**TRUST BREEDERS**

Gene & Janet Rhodes  
515 SW Elwood Dr • Lees Summit, MO 64081  
(816) 524-3435 • (816) 812-1751  
GRhodes@aol.com

After years of breeding and showing registered Arabian horses, the Rhodes became involved in cattle production in 2003. They began their registered Angus herd in the fall of 2007 with the purchase of 14 open heifers.

### Neil Angus

Calving-ease is also stacked up nicely in this pedigree, yet still with above average growth and Marbling EPDs.

# Spur Success 2801 [AMF-NHF]

Birth Date: 9-3-2002 Bull 14327307

Tattoo: 2801

REFERENCE SIRE

Sydenstricker Genetics

The front bull on the cover of this sale book, he is out of a longtime donor from our program who is now owned by Bub Raithe. Scanned 5.62 %IMF with a 16.5 REA.

## EPDS

- BW** – Birth weight, expressed in pounds.
  - WW** – Weaning weight, expressed in pounds at 205 days of age.
  - Milk** – Influence of the dam, due to her milking ability, on weaning weight, expressed in pounds of calf weaned.
  - YW** – Yearling weight, expressed in pounds at 365 days of age.
  - YH** – Yearling hip height, expressed in inches.
  - CW** – Carcass weight, expressed in pounds at a given end point.
  - MB** – Marbling, expressed as a portion of a marbling score (one point of marbling score = 1/3 quality grade).
  - REA** – Ribeye area, expressed in square inches, at a given end point.
  - FT** – Fat thickness, expressed in inches, at a given end point.
  - SC** – Scrotal circumference, expressed in centimeters, at a year of age.
  - MW** – Mature weight of the daughters, expressed in pounds.
- Remember that no EPD is an absolute. It simply allows you to compare genetic differences in sires. As an example, if you were to use a high accuracy +30 WW EPD sire in your herd, and the weaning weights average 550 pounds, then you could expect a high accuracy +40 WW EPD sire to sire calves averaging 560 pounds, if used in exactly the same situation. A sire with a +6 BW EPD should sire calves averaging four pounds heavier at birth than a sire with a +2 BW EPD.

**Chamness Angus**  
 Calving-ease and maternal strength are wrapped up in this bull's pedigree. Dam was SydGen's featured heifer calf consignment to the 2007 Missouri Angus Futurity.

**TIPS ON USING YEARLING BULLS**

Yearling bulls have many advantages: fresher genetics, better selection, etc. Studies have shown bulls used as yearlings sire more calves in their lifetime than bulls held until they are two. Also, buyers who manage them well can often re-sell them as three or four-year-olds and recover their purchase price.

A few tips from our experience:

1. If your group has too many cows or heifers for one yearling bull (we suggest 10-15), don't put all the bulls out at the start of the season. If you turn them all out at once, they are likely to all lose weight and perhaps all go temporarily sterile at the same time. If you have two bulls, put one in for two weeks, then pull him and turn out the other one. The forced rest and a little feed and fly control will make him stronger. Using the every two week rotation, if one bull is a stronger breeder, he will always be covering what the other bull missed. Furthermore, running multiple bulls in the Midwest often results in broken penises; it's just different out West where the pastures are so much larger.
2. A yearling bull should not be out in a Missouri pasture from mid-July through August. Bulls generally shed their first two incisors about 18-20 months of age. That combined with fescue endophyte and heat stress could cause the bull to get so nutritionally stressed that it will take a long time to get him back in shape.

## MOGCK Whispering Wind 584 [AMF-NHF]

Sydenstricker Genetics

Lots 66 and 67 are a pair of powerful flush brothers from the dam of the \$5,250 SydGen Journey 4355. The 1059 cow has long been a prolific donor for us and for the Sterita Park program in Australia. This mating was actually done for Sterita Park due to Boom Time's popularity in Australia.

**Graupman Angus**

Pair of Ally heifers both bred AI to SydGen CC&7 on 1-24-10. 77A was pasture exposed to SydGen Country Road 8666, while 77B was pasture exposed to SydGen Bodda Bing 5507.

**THE \$ INDEXES**

We now have four \$ Indexes available on Angus cattle. The newest, \$Weaning, is a measure of the economic impact of four primary areas affecting animals from birth through weaning. Those four areas are birth weight, weaning weight, maternal milk and mature cow size. It assumes an 80-20 mix of cows to heifers. \$Feedlot is a measure of the value associated with post-weaning growth. \$Grid is actually a combination of \$Quality and \$Yield Grade and is a measure of total end product value, using ultrasound and carcass data when both are available. \$B is a combination of \$F and \$G into a terminal value post-weaning. These indexes combine EPD values together to measure their combined economic impact on a dollars per head basis. With any index, there are assumptions made which may or may not fit your particular operation. For instance, if you are going to use a bull on cows only, the bias toward lower BW in the \$W index may not be needed. If the bull is going to be used solely on heifers, you may need more bias toward lower birth weights. The same holds true for particular carcass traits. If you have kill data history on your cattle, there may be one particular trait that you need to put more emphasis on than the \$G formula does. More information on the \$Values is available at [www.angus.org](http://www.angus.org).
