## Test and Sale Information

### HEALTH

All bulls are weaned 30 to 60 days prior to arrival. Bulls are vaccinated and BVD tested prior to arrival. Upon arrival they are treated with Draxxin, Enforce 3, 8-way Clostridium and Bovishield Gold FP-5VL 5HB. Bulls are dewormed with injectable Cydectin. At 60 days they are poured with Clean Up 2 for grubs, worms, and lice. Donated by Bayer Animal Health.

### TEST SCHEDULE

- October 20 Bulls arrive. They are tagged and started and continued on a warm-up ration prior to the start of the test.
- October 27 Bulls are started on test. They are fed a 30% concentrate ration for a moderate gain. The bulls are weighted at 60 days and progress reports are made available.
- February 23 120-day off test weights are taken
- After March 1 Bulls are fed a limited concentration high roughage ration.

### TEST DATA INFORMATION

Test data weights are taken by the Test Station personnel. The EPDs used in the progress reports and sale book are the current numbers sent to us by the respective breed associations. All information (good or bad) made available by the associations is included in the reports and sale book. If data is not available, we have indicated this with "NA" or a blank space.

### ULTRASOUND MEASUREMENTS

Ultrasound readings have been conducted by an accredited ultrasound technician. These readings and results will be made available on all bulls by sale day. Data from these ultrasound readings may significantly change the previous carcass and ultrasound EPDs.

### ELIGIBILITY TO SELL

Only the top bulls of each breed sell! Based on the following criteria:

1. Bulls must pass a semen quality exam and must have a scrotal measurement of 32 cm. or larger. This exam is conducted by Frontier Genetics.
2. Bulls are sifted for structural soundness as well as problems that would impair their breeding performance such as corns, cracked hooves, swollen joints,

improper hoof or foot placements, etc. This screening is done by commercial cattlemen.

3. The calculations are based on BIF standards. 50% on Average Daily Gain and 50% on Adjusted 365-Day Ratio.

Only the top bulls of each breed or division sell based on the test stations index.

The Test Station Index is used to determine sale order for each breed or division (highest index to lowest).

### CALVING EASE ANGUS

If the Angus breed has 50 bulls or more it may be divided into a growth division and a birth weight division. Calving ease Angus bulls must have an actual birth weight of 80 lbs. or less, a Birth EPD of +2.0 or lower, CED of 8+ and in addition, both the sire and dam must have a Birth EPD of 2.0 or less based on the updated EPD information at the conclusion of the test to qualify for the low Birth EPD division.

Twins and embryo transfer calves are not eligible in either the Angus or Hereford breeds to qualify as calving-ease bulls.

These bulls are compared only to other bulls in the "Low Birth EPD Division" and will be marked in the sale book with a CE symbol. They were not compared to other bulls of the breed.

### UPDATED TEST DATA

Updated test data and ultrasound results can be viewed online. <http://www.washingtoncattlement.org/bull-test-sale/>

### SALE LOCATION

Bonina Sale Facility, Eltopia, WA (15 miles north of Pasco, WA)

### SALE DAY PHONES

Matt Macfarlane ....916-803-3113  
Sale cattle are presently on a 120-day test and will be available for inspection until sale day at the Beus Feedlot until 3/16. After that, they can be seen at Bonina Sale Facility.

## **ACCOMMODATIONS**

Red Lion Inn • Pasco, WA • For reservations call 1-800-733-5466

M&M Motel • Connell, WA • For reservations call 1-509-234-8811

## **LUNCH AND REFRESHMENTS**

Coffee and donuts will be available at the sale site March 18th.

A complimentary lunch will be hosted by the WCA Allied Industries in conjunction with their Trade Show at 11 a.m.

## **LOT NUMBERS**

Ear tag lot numbers on sale cattle will correspond with the sale book.

## **TRANSPORTATION**

Upon request, planes will be met at the Tri-Cities Airport, Tri-Cities, WA. Transportation to and from the sale site or headquarters can be arranged by contacting the sale management.

## **DELIVERY**

Sale management and delivery coordinator Terry Pellham will assist in making delivery arrangements of the sale animals to the purchaser's destination at the lowest possible cost. All such deliveries will be made at the buyer's risk. Purchases may be left for 48 hours after the sale if necessary. However, bulls may be left for an additional length of time with Bonina. This is at the buyer's risk and cost. Those expenses and yardage will be settled with Bonina.

## **LIVESTOCK MORTALITY INSURANCE**

Mortality insurance is available on your purchase through the sale management through Star Net Insurance. Please notify the clerk if you wish to insure your purchase.

## **HEALTH**

All bulls will have appropriate health papers and will be available for immediate shipment. Cattle selling to any area that requires additional tests will have to complete the test before shipment. All bulls have passed as semen evaluation by an accredited veterinarian. All bulls selling are certified to be virgin bulls. All bulls have tested negative for BVD.

## **GENETIC TEST**

Angus and Angus Cross Bulls will be listed as potential carriers of genetic diseases unless they have been tested free of disease or potential to carry disease. Any animals that tested positive have been eliminated from the sale. Most Simmental and Simmental/Cross bulls have been Igenity Tested for Horned/Polled and for coat color. These animals are identified with the Igenity logo.

## **SALE ORDER**

BIF Standards are used to determine the bulls that are

eligible to sell and the order by which they will sell. The Station Index is used within each breed. This index is calculated based on 1/2 ADG and 1/2 Adjusted 365-Day Weight.

## **BIDDING**

Each animal offered for sale will be sold to the highest bidder. Each bid shall constitute an offer to purchase and the final bid shall constitute a binding contract between buyer and seller. The auctioneer will settle any disputes as to bids and his decisions on such matters will be final.

## **TERMS**

Terms of the sale are cash or bankable checks. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale.

## **ANNOUNCEMENTS**

Any changes of information from the sale book will be announced from the auction box and such announcements shall take precedence.

## **REGISTRATION PAPERS**

A certificate of registration and transfer will be furnished for each animal at no cost to the buyer.

## **HANDLING AND RISK**

Each animal will be at the purchaser's risk as soon as sold.

## **RIGHTS AND OBLIGATIONS**

In the event of default in any part of the Terms and Conditions covering this sale by either the buyer or seller, it shall be the responsibility of the buyer or seller to instigate any actions necessary to bring about a fair settlement of any claims arising from this sale and to be the responsible party for any and all costs involved therein. The sale management assumes no responsibility, legal or otherwise, to the failure of either seller or buyer to fulfill their obligation. All persons who attend the sale do so at their own risk. Neither the sale manager or any other person connected with the sale assume any liability, legal or otherwise.

## **ADDITIONAL SALE TERMS AND CONDITIONS**

Any terms or conditions not covered by the sale book will refer to the Sale Terms and Conditions set forth by respective breed associations of the breed purchased.

## **LiveAuctions.TV**

Real-time bidding via the internet for this sale. Live audio will allow buyers to bid on animals just as if they were present at the sale. Buyers must create an account and request a buyer number. Instructions are available to walk you through the account set-up process.

Tri-Tip courtesy of PerforMix.

Thank you, Allflex for sponsoring the awards jackets.

## **All Bull Test Consignors:**

Are members of the WCA and pay annual dues.

Contribute a percentage of their gross sale proceeds to the WCA to help fund WCA expenses, programs, and promotions.

This percentage has generated over \$90,000 in the past 26 years.

## **Membership:**

WCA memberships will be available at the sale.

1301 N. Dolarway Rd.  
P.O. Box 96  
Ellensburg, WA 98926  
509-925-9871  
Fax 509-925-3004  
frontdesk@wacattle.org  
www.washingtoncattlemen.org

You can count on a WCA bull!  
Every bull:

Has birth, weaning, and yearling weights and ratios

Records Average Daily Gain on test data and index

Carries current EPDs for birth, weaning, yearling, milk, and scrotal

Carries current EPDs for carcass traits with CHB\$/\$Beef values

Is scanned by ultrasound resulting in actual ribeye, marbling, and fat thickness measurements with ratios for each breed

Tests negative for BVD

Is fertility examined and semen tested

Is scrotal measured, 32 cm. minimum

Is re-treated with original vaccines prior to the sale to be ready for "turn out"

DNA TEST - Animals that have undergone DNA testing to enhance and increase reliability of EPDs are marked with (logo) for Zoetis HD50K, (logo) for GENESEEEK, (logo) for GE-EPDs and (logo) for Ingenuity.

## **WCA Bulls Vaccination Program**

For the last six years, the WCA Bull Test committee has taken every step possible to deliver a healthy, high-performing, breeding-ready bull for your cow herd. This includes a very regimented vaccination protocol designed to not only help prevent respiratory disease in the individual animal, but to address the major viruses contributing to reproductive issues such as IBR related abortions, BVD Persistently Infected calves, Campylobacter Fetus (Vibro) and the five major serovars of Leptospira, including Lepto Hardjo bovis (not to be confused with the Hardjo prajitno found in most conventional 5 ways). Additionally, these bulls are certified virgin and tested BVD-PI free.

The pre-sale vaccination program focusing on the reproductive protection includes the second dose of Bovi-Shield GOLD FP 5 VL5 + HB from Zoetis. The committee has selected this product based on the strength of the USDA-APHIS's label claims for both Challenge of Immunity (does it work) and Duration of Immunity (how long does it work). The label claims indicate 365 days of "Prevents Disease" protection for IBR abortions and BVD-PI free in which Zoetis offers a written guarantee, providing compensation for any failures due to these two viruses. Additionally, the Hardjo bovis fraction has the strongest label of any vaccine sold in the U.S., labeled for 365 days of immunity at the "Prevents Infection" level.

We are very confident in the level of protection this product will provide, meaning these bulls will not be a source of infection for these diseases to your cows, and conversely, your bulls are highly unlikely to be infected if your cow herd is currently harboring any of these diseases.

These bulls are READY!

Consigned by Wright Cattle Co.  
DNA/HD50K parent verified. Sired by the awesome calving-ease bull Treasure. Treasure has made a name for himself all over the country. His sons are in high demand. This son was range raised on steep shrub steppe country with no grain. He knows how to cover ground. Top 6% Tenderness. Top 10% for Birth Weight. Top 10% for Feet. Top 12% for Weaning Weight. Top 16% for Docility. Top 19% for Marbling. Top 25% for Energy. Actual weaning weight 754 lbs.

**We run in a real-world environment!**

Lots 401-405 on test and in sale are range raised in rough country. They are sired by Jindra Acclaim, MGR Treasure, and Stevenson Statement. They are sound and have learned how to travel on their Mama. Our cowherd knows how to work for a living!

KCF Bennett Fortress - Sire of Lots 407 & 408.

Consigned by Wright Cattle Co.  
DNA/HD50K parent verified. This bull's sire, Jindra Acclaim is at the top of the Angus breed for \$Beef. He is an elite growth sire. This Acclaim son is a soggy, easy moving bull. He was raised on steep shrub steppe rangeland with no grain and really covered the ground. He's in the top 11% for Birth Weight. The top 4% for Residual Average Daily Gain. The top 10% for Feedlot Value. The top 20% for \$B. Actual weaning weight 846 lbs. He was a standout from day one. A tremendous individual with a 75 lb. birth weight and explosive growth, he's been a bull test standout. He will add pounds to your program. He just missed the calving ease division by one on his CED. He met all other criteria.

This is a must see bull at the sale. He has the look and pedigree that is hard to match. Incredible HD50k numbers. Top 1% RADG, CW, \$F and huge 207 \$B. Top 2% YW. He is big boned, great footed, long bodied and level topped. His dam has an excellent udder stemming from the famous Countess cow family.

SAV Blue Ribbon 9157 was 3rd in sale order for the 2009 Schaff Angus Valley Bull Sale. He is sired by SAV Bismarck 5682, who is known for producing some of the greatest females in the Angus breed. This Blue Ribbon son takes after his sire and is the most attractive bull you will find with superior structural soundness, and very docile. He is an excellent candidate for heifers with a -1.6 Birth EPD and +14 CED.

There are bulls that are great on paper, and those that are great on the hoof; however, the trick is finding bulls that excel in both as this Insight son does. He has great EPDs with an even better square made phenotype. He is a low birth-weight bull with above average Milk EPD and strong \$Beef. He is a candidate for building a cowherd and keeping replacement females.

PF Counsel 643T 3514 -

Kesslers Whitlock 7587 was one of the top selling bulls from the 2018 Kesslers bull sale and is the sire of Lot 429. Dam is from the popular Lucy cow family and has been a consistent producer with four head at 103 for weaning. 7587 sons are thick made, correct on their feet and legs and provide good carcass traits.

Sired by Kesslers Whitlock 7587, this bull has a very balanced EPD profile covering all the bases. Dam is out of the great Kesslers Frontman R001 and has been a top producer recording an average weaning ratio of 107 on 6 head. Don't miss this opportunity to obtain these great genetics in this stout prospect.

This bull's EPD profile was snakebit by the DNA results. We aren't sold on the 50K since too many don't follow DNA results with production records. Has maternal genetics of Princess 1012, EXT and Alliance in his pedigree. His dam has a calving interval of 9/364. A herd changer. Positive \$Energy! Shouldn't have to chase this one with a grain bucket to keep in condition. Calving ease, easy fleshing, longevity and maternal.

# Angus

EXAR Monumental 6056B - Sire of Lot 448.

Consigned by Center Valley Angus  
74# BW, GS genomic testing placing this bull in the top 4% for BW among NP Angus bulls. EXAR Monumental is a bull making his mark across the Angus world. Our top two indexing heifers were Monumental's and we bred back to him again this year.

# Angus

A 5L Bourne son out of our great 603S Larkaba cow. 603S goes back to maternal powerhouses Chateau and Elway and posts a 104 MPPA. She produced the Lot 1 bull in the 2016 Feddes/C-T Bull Sale, where we are cooperators. If you're looking for a heifer bull with some added growth, take a look at this bull.

This guy has herd bull written all over him and has been a standout since birth. Sired by C-T Dominate, the high-selling bull in the 2018 Feddes/C-T Sale. Phenotypically, one of the better bulls we have raised. Added length, muscle, and bone all in an attractive package. Lots of performance in this bull with a WR of 109.

C-T Dominate 7067 - Sire of Lot 479.

Consigned by Thomas Herefords

Top 4% for CED and top 10% for BW. This bull, Nelson 953, is also sired by 215Z (as well as #957 Chester) who is a power and performance sire with added growth ranking in the top 1% of the breed for both WW and YW EPDs. His mother, a moderate sized mellow cow has gone to the county fair many times to be shown as dam and produce. She has met all expectations.

This young bull has already hung banners as the Grand Champion Bull at both the Oregon State Fair and the Washington State Fair as just a calf in 2019. His dam was a \$20,000 high selling female from the Jewels of the Northland sale in Minnesota, who has gone on to produce countless successful show and breeding cattle in the Midwest, the Northwest, and beyond. Her first female to sell at auction commanded \$12,500, and that was only the beginning. And if that were not enough, he is a direct son of W/C Executive Order, whose name is synonymous with great cattle across the country. Owned with our partners in Illinois, the Roger Allen family, you simply cannot go wrong with a bull of this pedigree, these EPDS, and this awesome phenotype walking your pastures.

Another bull that has the matriarch of our herd in his pedigree. This bull's sire is a direct son of a top selling Simmental female we purchased in Denver at the NWSS, who went on to win Grand Champion Female at the Western Regionals in Utah. As if that were not enough, this bull's sire has the ever popular Select Sires stud HPF Optimizer on the top side. Top 15% for Calving Ease and Birth Weight EPDS, this young bull has all the right parts and EPD profile to change any progressive program for the positive.

W/C Executive Order 8543B - Sire of Lot 514.

# Optimizer

969G along with Lots 518 and 519 were sired by our herd bull LHR Phoenix, out of WS Beef Maker R13. On his dam's side, one of the top Angus sires, Brilliance has provided strong genetics that when combined with our herd bull produced a calf with great potential. JB is docile with strong EPDs. Look this one over, raise your hand and take him home. You will be pleased with the results.

Take note on this good looking BWF son out of our herd sire LHR Phoenix. 944G is a docile bull with maternal merit and solid EPDs. He will produce calves that will certainly add solid genetics to your replacements.

This bull's dam stems from the matriarch of our cow herd. We purchased this bull's sire, Damar Duration, from Wisconsin. Check out his picture and EPD profile on Cattle Visions and elsewhere. Duration is a maternal grandson of a Denver NWSS Grand Champion Female and also stems from the ever popular W/C United, with the prolific Angus bull, Northern Improvement, on the maternal side. We successfully showed this calf last fall at the Washington State Fair, so he comes with the bonus of being halter broken. Buy this stud with confidence.

Schooley's URA Believer - Sire of Lots 525 & 526.

VALUE!**

# YOU'VE DONE THE WORK.

---

Get paid for it.

You've invested in good genetics.  
You've kept all the records.

AngusLink<sup>SM</sup> combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves.

From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

**Group Age & Source:** Verifies the group age and source of the cattle

**Angus-Sired Genetics:** Verifies calves are sired by 100% registered Angus bulls

**Non-Hormone Treated Cattle:** Verifies cattle have never received hormones

**NeverEver<sup>3</sup>:** No antibiotics, no hormones, no animal by-products ever

**Cattle Care & Handling:** Documents proper management, demonstrates quality commitment

**Calf Management:** Documents preventative health program

**Genetic Merit Scorecard<sup>SM</sup>:** Measures the genetic merit of calves for feedlot performance and carcass merit.

*\*Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.
