(608) 675-3238
Steve and Sara Wagemester
(608) 675-3187
Pat and Lori Reget

woodhill@mwt.net
www.woodhillfarms.com

Welcome to the 2009 Woodhill Bull Sale. The offering this spring is our 19th sale, the product of 25 years of carefully planned matings. There are 100 bulls cataloged by sire group. All bulls in this offering are Arthrogyrosis Multiplex (AM) Free. The ultrasound data and EPDs are current. The uniformity of the offering is apparent by study of these numbers.

Woodhill guarantees that these bulls are sound and will breed cows. If there are problems, contact us within the 90-day breeding season and your bull will be replaced. Should a suitable replacement be unavailable, you will receive a credit for next year's sale. As usual, we deliver bulls free of charge in Wisconsin, Minnesota, Iowa, and Illinois. There is a \$50 credit off the purchase price for bulls hauled by the buyer.

Production of sound, functional, problem free cattle has been the aim and purpose of the breeding program at Woodhill. From the beginning, we have used the available objective breeding tools as well as selecting for the many phenotypic and behavior traits fundamental to sound animal husbandry. The result you see today is a cow herd with all the attributes that make for an easier and more rewarding life for the cattleman.

We welcome calls about the sale offering and promise candid answers to any and all questions. Please note the sale starts at 1 P.M. this year, one hour later than last year. As usual, a free lunch will be served about an hour before sale time. All are welcome and we sincerely hope you will join us.

WOODHILL FARMS

19th ANNUAL BULL SALE

WOODHILL FARMS BULL SALE

Thursday, April 2, 2009 • 1 p.m., at the Farm
Selling 100 Woodhill Angus Bulls

AUCTIONEER:

Craig Conover
Phone (712) 882-1303 • Cell (712) 253-0706

SALE DAY PHONES:

(608) 675-3238

Cell (608) 606-3238 Brian McCulloh
Cell (608) 606-2029 Steve Wagemester
Cell (612) 618-2567 Dan Borgen

TELO-AUCTION AVAILABLE:

If you will be unable to attend the sale, you can do your own bidding via a conference telephone hook-up. Buyers interested in this option should call Brian or Lori McCulloh prior to sale day. On sale day, until sale time, buyers should call (608) 675-3238. You will be assigned a unique bidder number with which to do your bidding. During the sale, bidders should call (540) 674-1891. The only cost would be your long distance telephone charges incurred in calling (540) 674-1891 to be on the hook-up during the sale.

LIVESTOCK PRESS:

Jerry Cassidy, *Angus Journal*..... Cell (816) 390-6603
Kirby Goettsch,
Western Livestock Reporter..... Cell (605) 380-3939
Tom Rooney, *Midwest Marketer*..... Cell (515) 491-6025
Mike Sorensen, *Livestock Plus* Cell (641) 745-7949
Dustin Carter, *Livestock Plus* Cell (712) 898-9972

TRAVEL & DIRECTIONS:

Viroqua is located 1 hour south of LaCrosse, WI or 2 hours northwest of Madison, WI
Woodhill Farms is located 9 miles southwest of Viroqua, WI on Highways 27 and 82 at Liberty Pole, WI.
Watch for the Woodhill Farms sign in Liberty Pole.

LODGING:

Super 8 Motel – Viroqua (608) 637-3100
For assistance with travel arrangements or accommodations, contact Brian or Lori McCulloh at (608) 675-3238.

LUNCH:

A hearty complimentary lunch will be available beginning at 11 a.m.

ANNOUNCEMENTS:

Announcements from the block sale day take precedence over information in this sale book.

DELIVERY OF BULLS:

We deliver bulls free of charge in Wisconsin and bordering states. Delivery costs will not exceed \$250 per bull outside of this area, and every effort will be made to deliver them as soon as possible after the sale. We offer a \$50 discount per bull if you haul your own bull within 2 weeks of the sale date.

ADDITIONAL DATA:

All EPDs in the sale book are current, including ultrasound and yearling EPDs. Sale order will be available after March 31.

REVENUE SHARING:

We are maintaining one-third interest in semen revenue share in a number of these bulls. This entitles Woodhill to use semen within our herd and register calves. Additionally, should the bull be leased for semen sales, our revenue share will be pro-rated accordingly.

HERD HEALTH:

All bulls have tested negative for persistently infected BVD. Bulls have been vaccinated with Pfizer products Bovi-Shield Gold, Ultrabac 7, One Shot, and treated with Dectomax. Bulls are fertility checked and sell as guaranteed breeders. All bulls will be accompanied with proper health papers for immediate shipment.

INSURANCE:

Livestock mortality insurance will be available sale day.

The Right Bull

"Which bull is the best one in this sale," is a question often asked. Dr. Scott Greiner of Virginia Tech suggests rather that the question to ask is "which is the right bull for my operation?" He says that genetic improvement in commercial herds is most effectively accomplished by proper sire selection. Further, he advises to focus on a few traits that are a priority rather than trying to change many traits at the same time.

The first step in the priority process, Dr. Greiner suggests, is simply to define the objectives and goals of production and marketing. Will the bull breed heifers, mature cows, or both? Is the plan to sell calves at weaning, to retain ownership, or to background? Will replacement females be retained in the herd?

Next consider the situation in which your cattle must function and appraise the management resources available to you. Keep in mind that any short fall in management will limit performance to some extent. Put another way, a deficient environment limits genetic expression, diminishing returns on the investment in genetic advancement. Greiner cites the example of an operation marketing weaned calves where optimum early growth is essential for maximum profit. Early growth requires milk. Cows bred to produce that milk will fall short of their genetic potential without sufficient feed resources.

Having established priorities, use the EPDs available for traits of economic importance. Decide which of them is most important in your operation and set some benchmarks for what you need. Keep in mind that pursuit of a single trait can come at a cost in other traits. Pursuit of high yearling growth, for example, may come at the cost of increasing birth weight.

In summary, Dr. Greiner says that with proper strategy you can find the right bull. Whether that bull is the most popular or at the top of the sale order is not relevant. Your needs are your needs. What other buyers may need or want could well be the wrong bull for you.

(This piece is condensed from an article by Dr. Greiner and included in the sale book with his kind permission.)

GAR Predestined

For your reference... Taken from the Spring 2008 Angus Sire Evaluation Report

Weaned Calf Value (\$W)

Weaned Calf \$Value (\$W) quantifies four primary economic impact areas:

1. Birth Weight - birth weight influences on calf death losses related to dystocia, weaned calf crop percentage, and resulting revenue per cow.
2. Weaning Weight - direct growth impact on weaning weight revenue (pre-weaning growth and pounds of calf sold) and energy requirements and related costs necessary to support pre-weaning calf growth.
3. Maternal Milk - revenue from calf pre-weaning growth and pounds of calf sold as influenced by varying cow milk levels, and costs related to lactation energy requirements.
4. Mature Cow Size - expense adjustments are made for maintenance energy as related to differing mature cow size, including mathematical linkages between mature weight and yearling weight.

Beef Value (\$B)

Beef Value (\$B) facilitates what almost every beef breeder is already seeking - simultaneous multi-trait genetic selection for feedlot and carcass merit, based on dollars and cents. \$B represents the expected average dollar-per-head difference in the progeny postweaning performance and carcass value compared to progeny of other sires. The \$B value is comprised of two pieces: \$F and \$G. To align \$B with marketplace realities and appropriately value carcass weight in Angus cattle, the following factors are incorporated into the final calculations for \$B.

\$B is not simply the sum of \$F and \$G.

Projected carcass weight and its value are calculated, along with production cost differences.

\$B takes into consideration any discount for heavyweight carcasses.

Final adjustments are made to prevent double-counting weight between feedlot and carcass segments.

The resulting \$B value is not designed to be driven by one factor, such as quality, red meat yield or weight. Instead, it is a dynamic result of the application of commercial market values to Angus genetics for both feedlot and carcass merit.

SYMBOLS FOUND IN PEDIGREES

- Animal has achieved Pathfinder status

Calving-ease is the result of several factors. Studies indicate that the cow is roughly two-thirds responsible for calving-ease, the sire about one-third responsible. Lighter birth weight is a big factor. We have selected low birth weight sires over many generations. Calving-ease in our bulls is, therefore, a reliable and consistent feature. Still, some issues beyond the control of man can come into play. Cold winters, as an example, result in higher birth weights and more calving problems, possibly from higher blood flow to the uterus to maintain core temperature. Management issues like cow herd nutrition during gestation also has an impact on birth weights. Diets high in protein (alfalfa hay) and energy (corn) result in heavier calves at birth.

Cattle that are born easily, gain fast,
and convert well are always in high
demand-especially now with high feed
prices and slim margins.

Mating cattle will result in a mix of genes. Expected Progeny Differences (EPDs) help us predict the outcome of a mating. We understand EPDs and when used properly, EPDs are still the best selection tool available.

Angus Breed Average EPDs for Non-Parent Bulls

If you have calves to market, don't let them leave home without an AngusSource® tag. AngusSource adds value to your Angus-sired feeder cattle and replacement heifers by:

- Guaranteeing Angus genetics
- Verifying source and age
- Opportunity to qualify for Certified Angus Beef® regardless of hide color

Visit www.angussource.com or call 816-383-5100 for more information.

Don't let 'em leave home without one!
